

- Marijuana oil can be the most potent form of Cannabis because of its high THC content and purest form.
- Standard marijuana (10%-20 % THC); Marijuana oil (30%-90%).
- Marijuana oil can be consumed in various ways, including smoking, oral (eating) and vaporization.
- “Vaping”, inhaled thru electronic cigarettes or “E-Cigs”, is becoming prevalent in Edmonton.
- “E-Cigs”, which are odourless or often scented with fruit flavours, are being used by youth in public places.
- An electronic cigarette is a battery-powered device, which simulates tobacco smoking by producing a vapor that resembles smoke.
