

Household Inventory

Aviva Canada Inc. supports the concept of Neighbourhood Watch and Operation Identification. Use this handy form to itemize your possessions and credit cards, both for insurance purposes and in case of theft.

This Household Inventory form, used in conjunction with Operation Identification, can help identify lost or stolen property quickly.

Under Operation Identification you are encouraged to engrave identifying marks, such as your driver’s license number, into all your household items. Engraving pens are available, on loan, from your local police services.

In addition to maintaining a home inventory, you might consider taking photographs or a video of the contents of your home.

Be sure to create back up copies of the inventory, pictures and/or videos and store them off-site. If this inventory is stored on your computer, ensure you have a back up copy, because if your computer is stolen, so is your inventory!

Living Room/Family Room

Credit Cards

If you lose a credit card, you should report it to the issuing company without delay. We suggest you make a list of all the credit cards your family has and the name and address of the company to notify. Don't start hunting for this information after your credit cards have been lost or stolen.
