

EDMONTON POLICE SERVICE

REPORT TO THE EDMONTON POLICE COMMISSION

DATE: 2018 July 10

SUBJECT: 2018 Citizen and Business Satisfaction Survey Results

RECOMMENDATION(S):

That the 2018 Citizen and Business Survey reports be received for information at the EPC public meeting July 19, 2018.

INTRODUCTION:

This report will provide preliminary information to the EPC regarding the 2018 Citizen and Business Satisfaction Survey Results.

BACKGROUND:

The 2018 Citizen and Business Surveys were administered to identify key issues, concerns and policing priorities.

COMMENTS/DISCUSSION:

The attached reports outline the preliminary results for both surveys. Further analysis will be conducted to glean insights into policing priorities and planning for the future.

CONCLUSION:

For review and consideration.

Background

The Edmonton Police Service (EPS) conducts a biennial Citizen Survey to identify key community issues, concerns, and perceptions and priorities Edmontonians have with respect to crime, disorder and neighbourhood safety. The survey also provides citizens with an opportunity to tell the EPS how they think the organization is doing.

Based on a 2016 pilot study, 2018 marks the first year the Citizen survey was administered solely online, leveraging the City of Edmonton's *Insight Community* as well as publishing an *open link* through EPS Social Media, on the EPS and City of Edmonton Websites, and shared with community groups through the Community Operations Support Unit. The survey was available from March 12–19, 2018. The Insight panel and open link forums had 1,998 and 1,989 respondents, respectively.

The EPS and EPC will use the information collected to inform policing priorities as they pursue their shared vision *to make Edmonton the safest major city in Canada and for the EPS to be recognized as a leader in policing*.

Contact and Satisfaction with the EPS

58% of Insight Panel members and 71% of Open Link respondents reported contacting EPS in the previous 24 months. All were most likely to contact police to report a crime; a neighbourhood problem or concern; or a traffic accident or medical emergency.

Respondents from both samples were typically satisfied with their overall EPS contact; however, they were most satisfied when they reached an officer directly, either via phone or while on duty.

Though respondents were generally satisfied with their police interactions, a higher proportion reported higher response times than expected (when compared to 2016 results).

EPS initiated contact with 8% of Insight Panel members and 12% of Open Link respondents. Contact was most frequently for the following reasons: to ask for information in connection with a crime; to investigate a traffic collision; or for a traffic violation. In general, Insight Panel members were satisfied with their EPS-initiated contact; however, a considerably smaller proportion of Open Link respondents indicated satisfaction.

Perceptions of Crime and Safety

Perceptions of neighbourhood crime and safety remain largely the same between 2016 and 2018; however, 41% of Insight Panel members and 54% of Open Link respondents perceived that crime in the city has increased. Respondents from both samples felt safer walking alone during the day rather than at night.

In general, 2018 respondents felt that Edmonton had more crime than other cities in Canada when compared to 2016 results.

Citizen Priorities

Top **neighbourhood concerns** identified from all respondents:

- speeding and careless driving;
- people breaking into homes;
- suspicious loitering.

Top five **city-wide concerns** for EPS to address were identified as:

- Homicide
- Sexual Assault
- Drugs
- Domestic Violence
- Gangs

Specific **traffic-related concerns** were prioritized as:

- Cell phone use/distracted driving/texting;
- Aggressive/reckless driving; and
- Impaired driving.

When asked to provide **recommendations for improved service**, all respondents identified the following:

- More visible police presence;
- Improve officers' behaviour; and
- More officers.

Overall Views of the EPS

Respondents were asked to rate how well police do on the following 6 measures of performance:

Ensuring Safety

Approachability

Treating people fairly

Enforcing law

Supplying information

Prompt call response

The proportion of Insight Panel members indicating the police have done a “good job” has remained relatively static between 2016 and 2018; however, the proportion of Open Link respondents indicating that the EPS is doing a “good job” decreased.

Although remaining relatively high, public confidence in the EPS has decreased slightly between 2016 and 2018 as follows:

- from 85% to 81% among Insight Panel members; and
- from 82% to 72% among Open Link respondents.

Overall decreases were observed the areas of satisfaction with EPS; perceptions regarding adequacy of service provided; and perceptions of officer competency.

Edmonton Police Commission

Respondents from both samples were most aware that the Commission is responsible for overseeing police officer conduct, but least aware that the Commission administers citizen awards and holds public meetings.

Conclusion

The EPS is grateful for the feedback provided by citizens' and will endeavour to solicit guidance and input to help the service shape its policing priorities going forward. In the coming weeks and months, the Service will work closely with the Edmonton Police Commission to develop tangible next steps and action plans as a result of feedback from this survey.

2018 EPS Citizen Survey Initial DRAFT Report

Executive Summary

- The purpose of the 2018 EPS Citizen Survey is to identify key community issues, concerns and priorities. EPS and EPC will use the information collected in this survey to inform policing priorities as they pursue their shared vision:
“To make Edmonton the safest major city in Canada and for the EPS to be recognized as a leader in policing.”
- EPS and EPC administered the 2018 Citizen Survey online from March 12–19, 2018.
- The number of respondents from each source is as follows:
 - Edmonton Insight Panel Members: n = 1998
 - Open Link Respondents: n = 1989

Executive Summary

- 58% of Insight Panel members and 71% of Open Link respondents reported contacting EPS in the previous 24 months. Respondents from both samples were most likely to contact police to report a...
 - ... crime;
 - ... neighbourhood problem or concern; and,
 - ... traffic accident or medical emergency.
- Respondents from both samples were typically satisfied with their contact; however, they were most satisfied when they reached an officer directly, either via phone or while on duty.
- While both samples favourably rated their contact with dispatched officer(s), both had an increase in the proportion of respondents who reported that the police took longer to arrive than expected (compared to 2016).

Executive Summary

- 8% of Insight Panel members and 12% of Open Link respondents reported that EPS initiated contact with them, most frequently for the following reasons:
 - To ask for information in connection with a crime that had been committed;
 - To investigate a traffic collision; or,
 - For a traffic violation.
- In general, Insight Panel members were satisfied with their EPS-initiated contact; however, a considerably smaller proportion of Open Link respondents indicated satisfaction.

Executive Summary

- *Perceptions of neighbourhood crime and safety* remain largely the same between 2016 & 2018; however, 41% of Insight Panel members and 54% of Open Link respondents perceived that crime in the *city* has increased.
- Moreover, respondents from both samples felt more safe walking alone in their neighbourhood (and the city) during the day rather than at night.
- In general, higher proportions felt Edmonton had more crime than other cities in Canada (compared to 2016 results).
- The following were identified as the top neighbourhood concerns* between both samples:
 - Speeding and careless driving;
 - People breaking into homes; and,
 - Suspicious loitering.

*These concerns have consistently been identified by respondents since 2009.

Executive Summary

- Respondents from both samples identified the following top five city-wide issues for EPS to address:
 - Homicide
 - Sexual Assault
 - Drugs
 - Domestic Violence
 - Gangs
- Additionally, they identified the top three traffic concerns:
 - Cell phone use/distracted driving/texting
 - Aggressive/reckless driving
 - Impaired driving
- When asked to provide recommendations for improved service, respondents and panel members alike identified the following:
 - More visible police presence
 - Improve officers' behaviour
 - More Officers

Executive Summary

- Overall confidence in the EPS decreased:
 - From 85% to 81% amongst Insight Panel members
 - From 82% to 72% amongst Open Link respondents
- Overall there were slight decreases in the following:
 - Satisfaction with EPS
 - Perceptions of officer competency
 - Perceptions regarding adequacy of service provided
- Respondents were asked to rate how well police do on the following 6 measures of performance:
 - Ensuring Safety
 - Enforcing law
 - Approachability
 - Supplying information
 - Treating people fairly
 - Prompt call response
- The proportion of Insight Panel members indicating the police have done a “good job” has remained relatively static between 2016 and 2018; however, the proportion of Open Link respondents indicating the EPS is doing a “good job” decreased.

Executive Summary

- When asked to rate their awareness of various EPC functions, respondents from both samples were...
 - ... most aware that the Commission is responsible for overseeing police officer conduct.
 - ... least aware that the Commission administers citizen awards and holds public meetings.

Background

- The purpose of the 2018 Edmonton Police Service (EPS) Citizen Survey is to identify key community issues, concerns and priorities. EPS and the Edmonton Police Commission (EPC) will use the information collected in this survey to inform policing priorities as they pursue their shared vision:

“To make Edmonton the safest major city in Canada and for the EPS to be recognized as a leader in policing.”

- The Alberta Policing Standards require the EPS & EPC to formally consult with Edmontonians at least once every four years. This consultation must seek the opinions of the community on the following matters:
 - The performance of the police service;
 - The conduct of police personnel;
 - The interaction of police officers with citizens;
 - Public perceptions regarding safety and security in the community;
 - Recommendations for improvement; and,
 - Citizens’ levels of satisfaction with the police service.

Background

- EPS and EPC administered the 2018 Citizen Survey online from March 12– 19, 2018, using two distinct samples.
- The number of respondents from each source is as follows:

	Edmonton Insight Panel	Open Link
# of Respondents	1998	1989
Margin of Error*	+/- 2.19%, 19/20	+/- 2.19%, 19/20

*As this is a non-random survey, margin of error is not typically reported.

Methods Description & Limitations - Insight Community

- **Description:**
 - Non-randomized sample of Edmonton residents who the City engages with and learns from on a continuous basis.
- **Pros:**
 - Highly engaged panel of citizens who desire to provide feedback on City services and initiatives.
 - Diverse cross-section of Edmontonians.
- **Cons:**
 - Panel membership not directly representative of general population.
 - More difficult to generalize results to the overall population.
 - Because participants opt-in, this type of sampling method is prone to Selection Bias.

Methods Description & Limitations - Open Link

- **Description:**
 - Open survey link available online to anyone with access to the Internet.
 - The open survey link was published through EPS Social Media (i.e., Facebook & Twitter), on the EPS and City of Edmonton Websites, and shared with community groups through the Community Operations Support Unit (COSU).
- **Pros:**
 - Allows anyone with an interest in the research topic to provide their feedback.
 - Garners depth of input from individuals passionate about the issue at hand.
- **Cons:**
 - Typically, only those with a strong interest in the topic are likely to respond.
 - No controls are in place to ensure a representative sample, therefore, results cannot be adequately generalized to overall population.
 - Because participants opt-in, this type of sampling method is prone to Selection Bias.
 - Consequently, circulation to special interest groups or groups with a particular bias may occur.

Changes to the 2018 Citizen Survey

- Administered solely online to...
 - ...allow for increased participation from citizens; and,
 - ...realize internal efficiencies.
- Changed wording and sequence of some questions to...
 - ...aid in deeper analysis;
 - ...streamline the respondent experience; and,
 - ...better reflect the time period between survey administrations.
- Added or altered items regarding the following topics:
 - Respondent experience with EPS' digital media presence;
 - Citizens' perceptions of safety; and,
 - Respondent awareness of the EPC.

Interpreting the data

- Throughout the report, the Insight Panel and Open Link are treated as two separate samples and reported as such.
- Where possible and appropriate, the following data are also included:
 - 2016 Insight Panel responses
 - 2016 Open Link responses
 - 2016 Phone survey responses
- Phone survey responses from 2016 are included for reference only. Due to the different biases phone and online surveys are prone to, as well as the fact that the online samples are non-randomized, comparing results from the two mediums ***will not provide meaningful information.***

EPS-Initiated Contact

- In general, Insight Panel members were satisfied with their EPS-initiated contact; however, considerably fewer Open Link respondents indicated satisfaction.

In the past 24 months*, crime in your neighbourhood has...

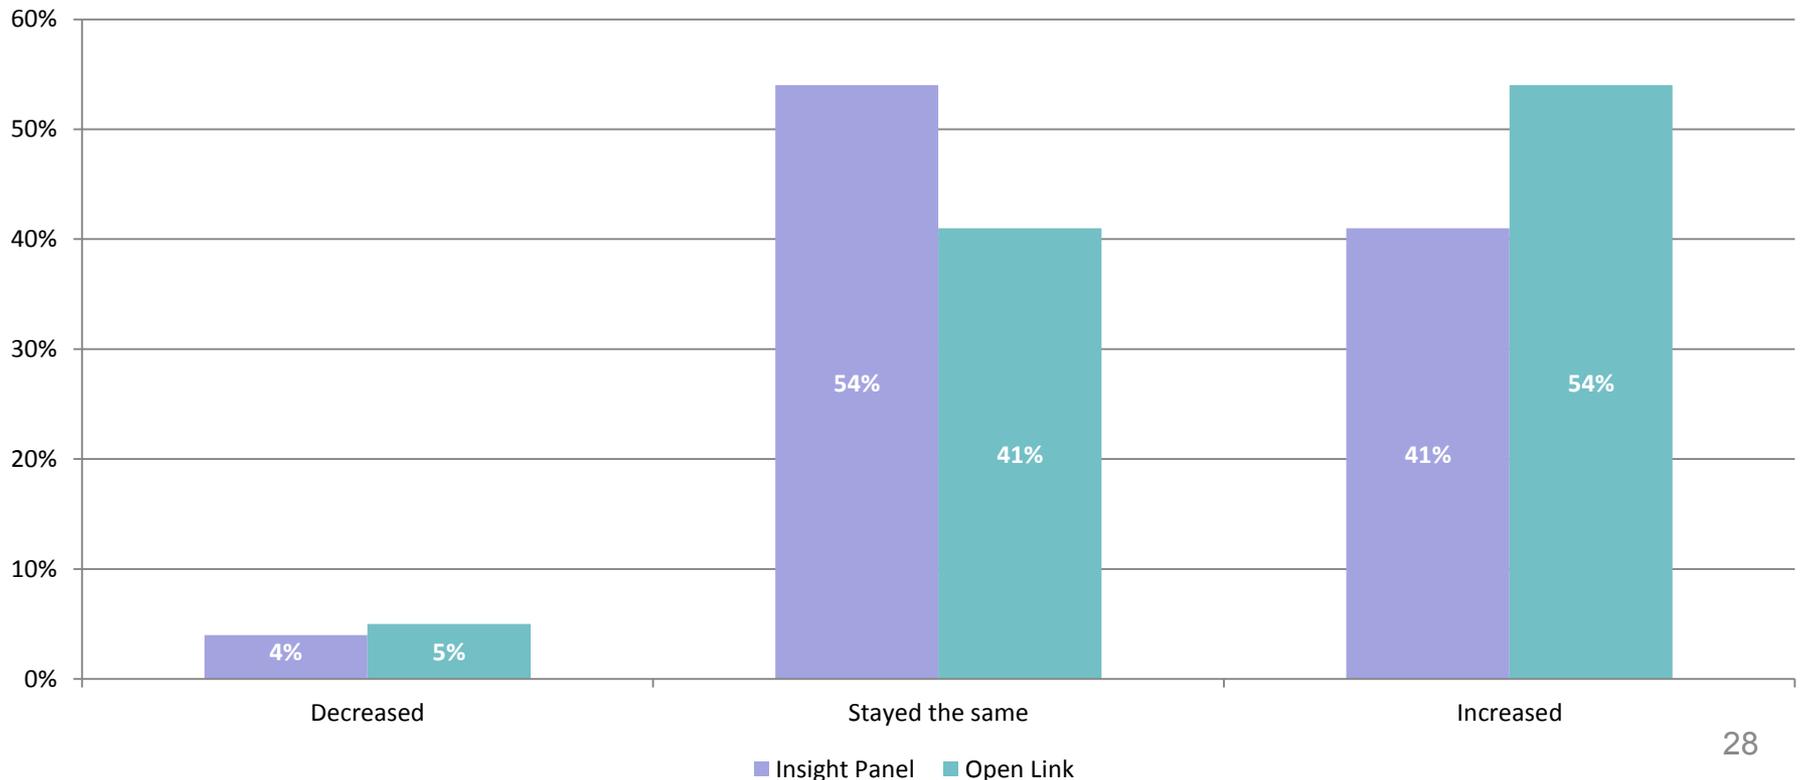

- Results for both the Insight Panel and Open Link remained consistent between 2016 and 2018. In both years, Open Link respondents were more likely to report that crime had increased in their neighbourhood compared to their Insight Panel counterparts.

*Respondents were asked to consider the past 12 months in 2016

In the past 24 months, crime in the city has...

- Open Link respondents were also more likely to say that crime in the city overall had increased over the past 2 years, similar to their perceptions of neighbourhood crime.

How safe do you feel...

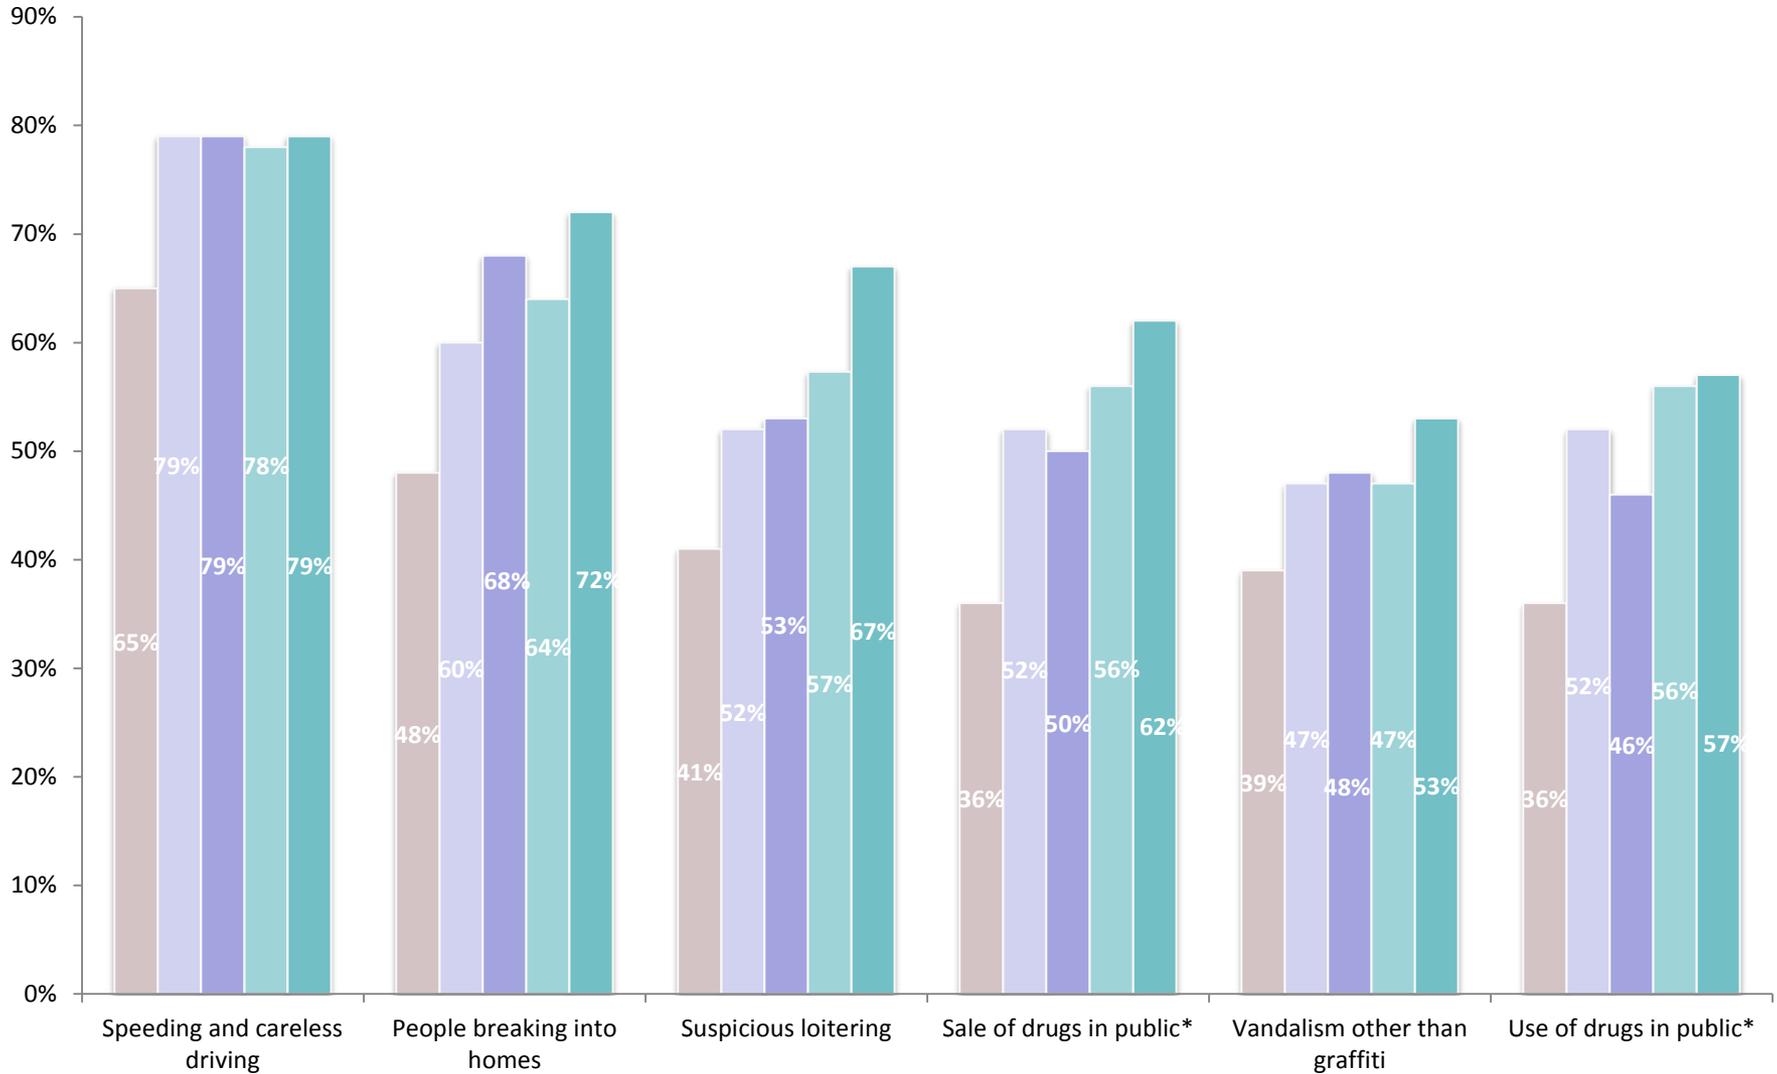

- Respondents from both samples felt more safe walking alone in their neighbourhood (and the city) during the day rather than at night.

	Sample	Very safe	Reasonably safe	Somewhat unsafe	Very unsafe
...walking alone in Edmonton during the day?	Insight	46%	49%	4%	1%
	Open Link	32%	57%	10%	2%

	Open Link	15%	41%	31%	13%

Top Neighbourhood Concerns

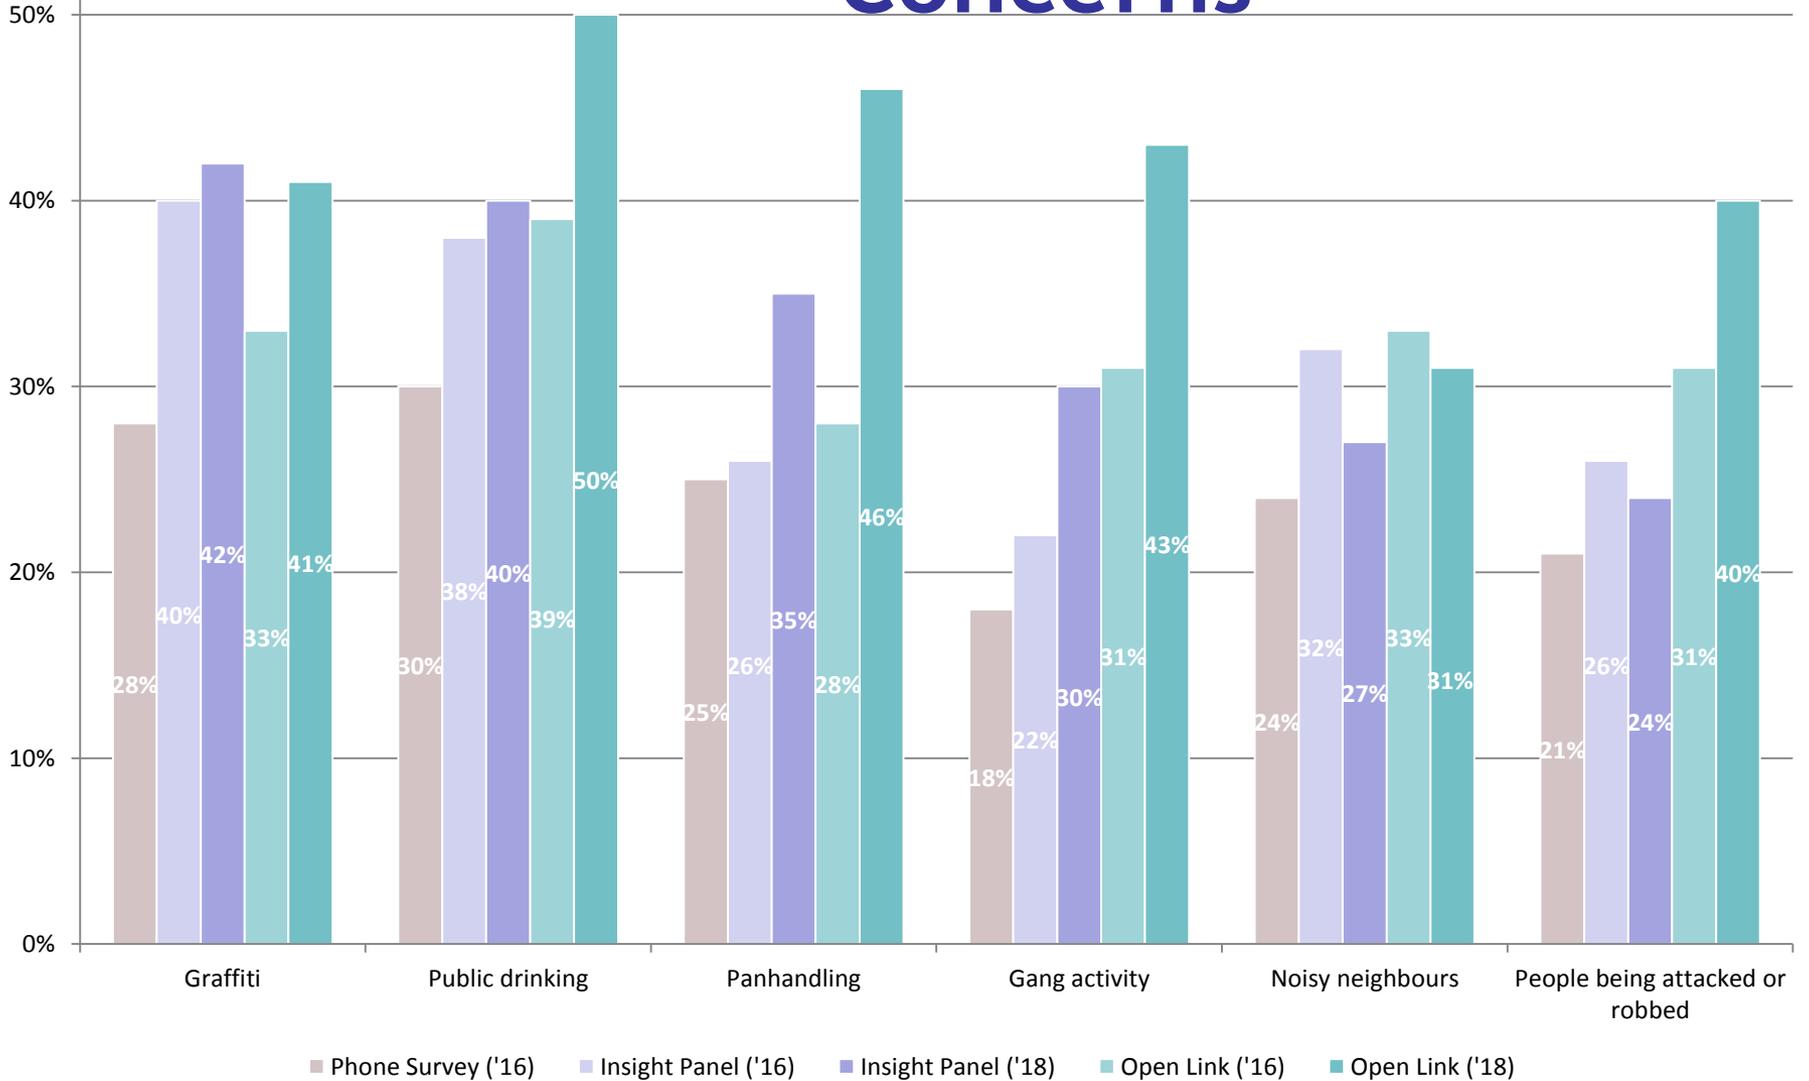

- Year over year, and between samples, the following were identified as the top neighbourhood concerns:
 - Speeding and careless driving;
 - People breaking into homes; and,
 - Suspicious loitering.

Top Neighbourhood Concerns

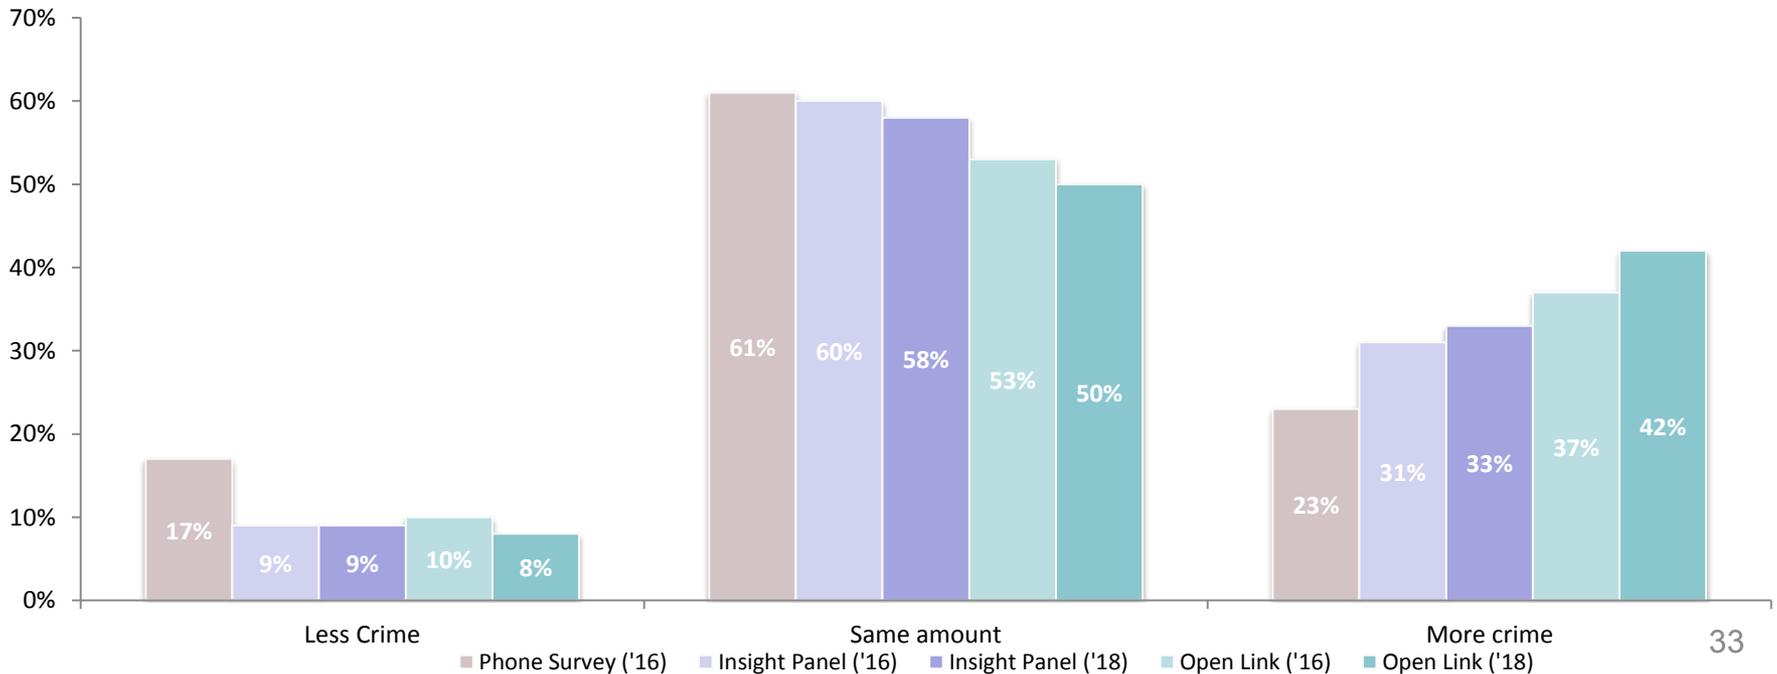

*combined as one item in 2016 and separated for 2018

Additional Neighbourhood Concerns

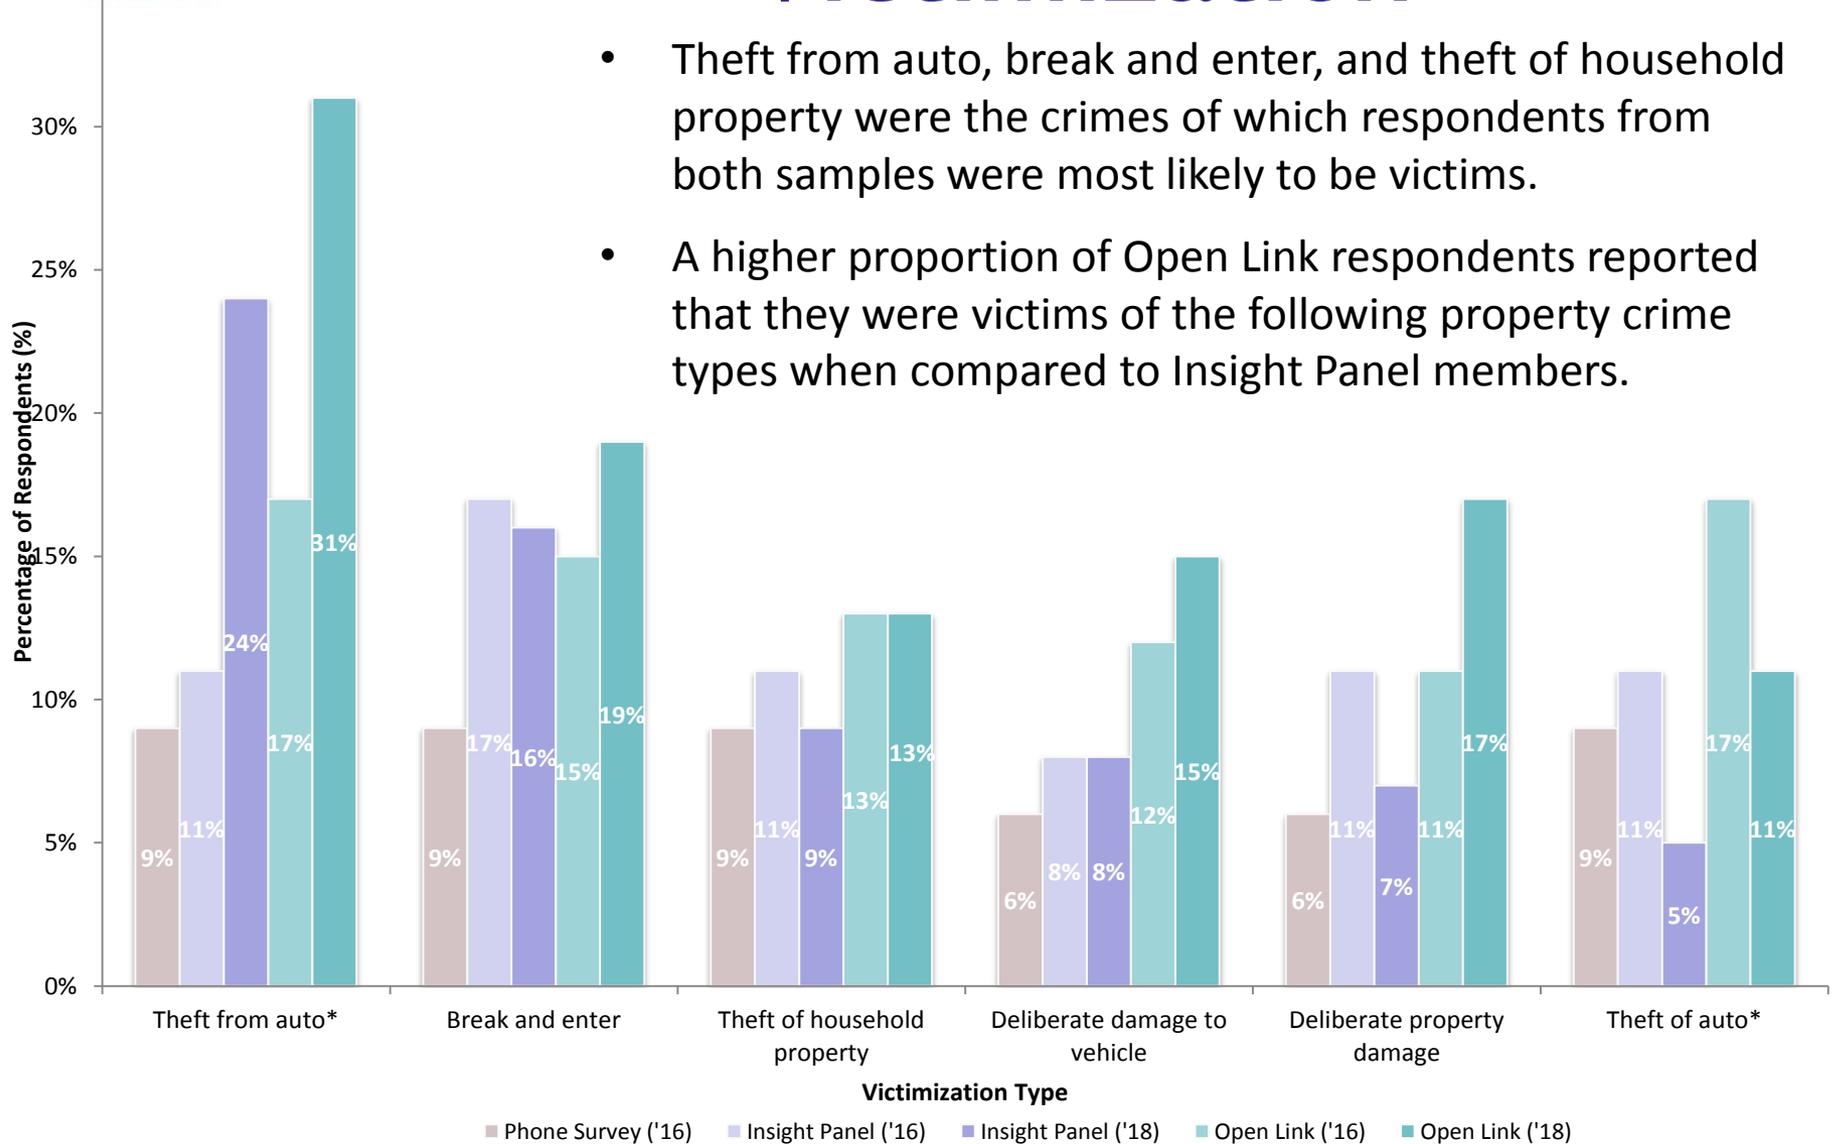

Compared to other cities in Canada, Edmonton has...

- Consistent with previous findings, Open Link respondents were more likely than Insight Panel members to say that Edmonton has more crime compared to other major cities in Canada.

Victimization

- Theft from auto, break and enter, and theft of household property were the crimes of which respondents from both samples were most likely to be victims.
- A higher proportion of Open Link respondents reported that they were victims of the following property crime types when compared to Insight Panel members.

*Combined as one item in 2016 and separated for 2018

Victimization - Rate

- In most cases, respondents from both samples reported only being victims once by the types of property crime below.
 - However, over half of the victimized Open Link respondents indicated items were stolen from their vehicles on multiple occasions.

	Sample	1 Time	2 Times	3 Times	More than 3 Times
Theft from auto	Insight (n = 479)	58%	24%	9%	9%
	Open Link (n = 620)	46%	28%	10%	15%
Break and enter	Insight (n = 329)	53%	22%	9%	15%
	Open Link (n = 368)	53%	22%	8%	17%

Theft of auto	Insight (n = 102)	75%	19%	3%	4%
	Open Link (n = 217)	63%	22%	6%	9%

Victimization - Incidents not Reported

- Theft from Auto was the crime least likely to be reported by respondents of both samples; conversely, Break and Enter was most likely to be reported.

	Sample	All incidents reported	1 Incident	2 Incidents	3 Incidents	More than 3 Incidents
Theft from auto	Insight (n = 479)	32%	42%	17%	4%	5%
	Open Link (n = 620)	36%	37%	16%	4%	7%

	Open Link (n = 217)	51%	36%	7%	3%	3%

Victimization - Top Reasons for Not Reporting

- In general, the most common reasons for not reporting a crime were as follows:
 - Police couldn't do anything;
 - Police wouldn't help; and,
 - Wasn't important enough to report.

	Insight Panel	Open Link
Theft from auto	Police couldn't do anything (29%)	Police couldn't do anything (26%)

Traffic Issues to be Addressed by the EPS

- When asked to rate their top three traffic concerns to be addressed by the EPS, responses were consistent between the two samples.

Issue	Rank	Insight Panel	Open Link
Cell phone use/distracted driving/texting	#1	69% (n = 1370)	62% (n = 1239)
Aggressive/reckless driving	#2	62% (n = 1231)	60% (n = 1195)
Impaired driving	#3	30% (n = 602)	38% (n = 750)

City-wide Issues to be Addressed by the EPS

- Similarly, the top five city-wide issues to be addressed by the EPS were consistent across samples.

Issue	Rank	Insight Panel Weighted* Responses	Open Link Weighted* Responses
Homicide	#1	45% (n = 892)	54% (n = 1083)
Sexual Assault	#2	38% (n = 766)	52% (n = 1035)
Drugs	#3	31% (n = 622)	47% (n = 925)
Domestic Violence	#4	30% (n = 604)	38% (n = 755)
Gangs	#5	29% (n = 576)	36% (n = 722)

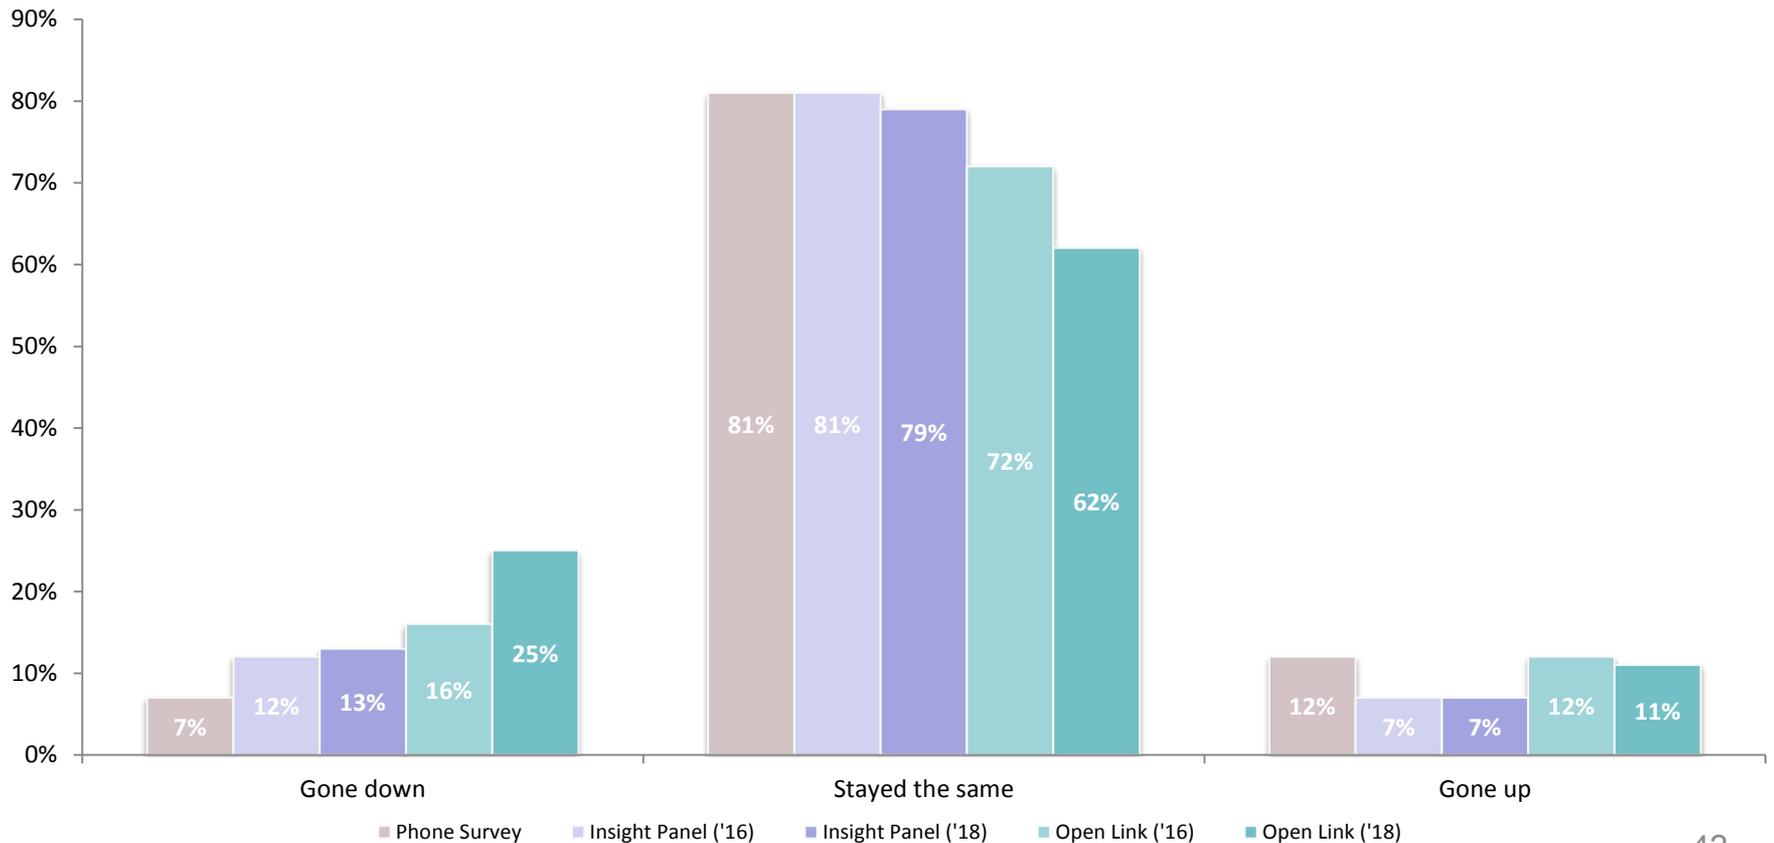

*Responses were weighted in analysis so that concerns that were ranked higher bore more relative importance than those ranked lower

Overall View of the EPS

- Overall confidence in the EPS decreased...
 - ...from 85% to 81% amongst Insight Panel members.
 - ...from 82% to 72% amongst Open Link respondents.

	Phone Survey	Insight Panel		Open Link	
	2016	2016	2018	2016	2018
Strongly Agree	57%	35%	36%	44%	33%
Somewhat Agree	37%	50%	45%	38%	39%
Somewhat Disagree	3%	10%	13%	11%	13%
Strongly Disagree	3%	5%	5%	7%	13%

Overall View of the EPS

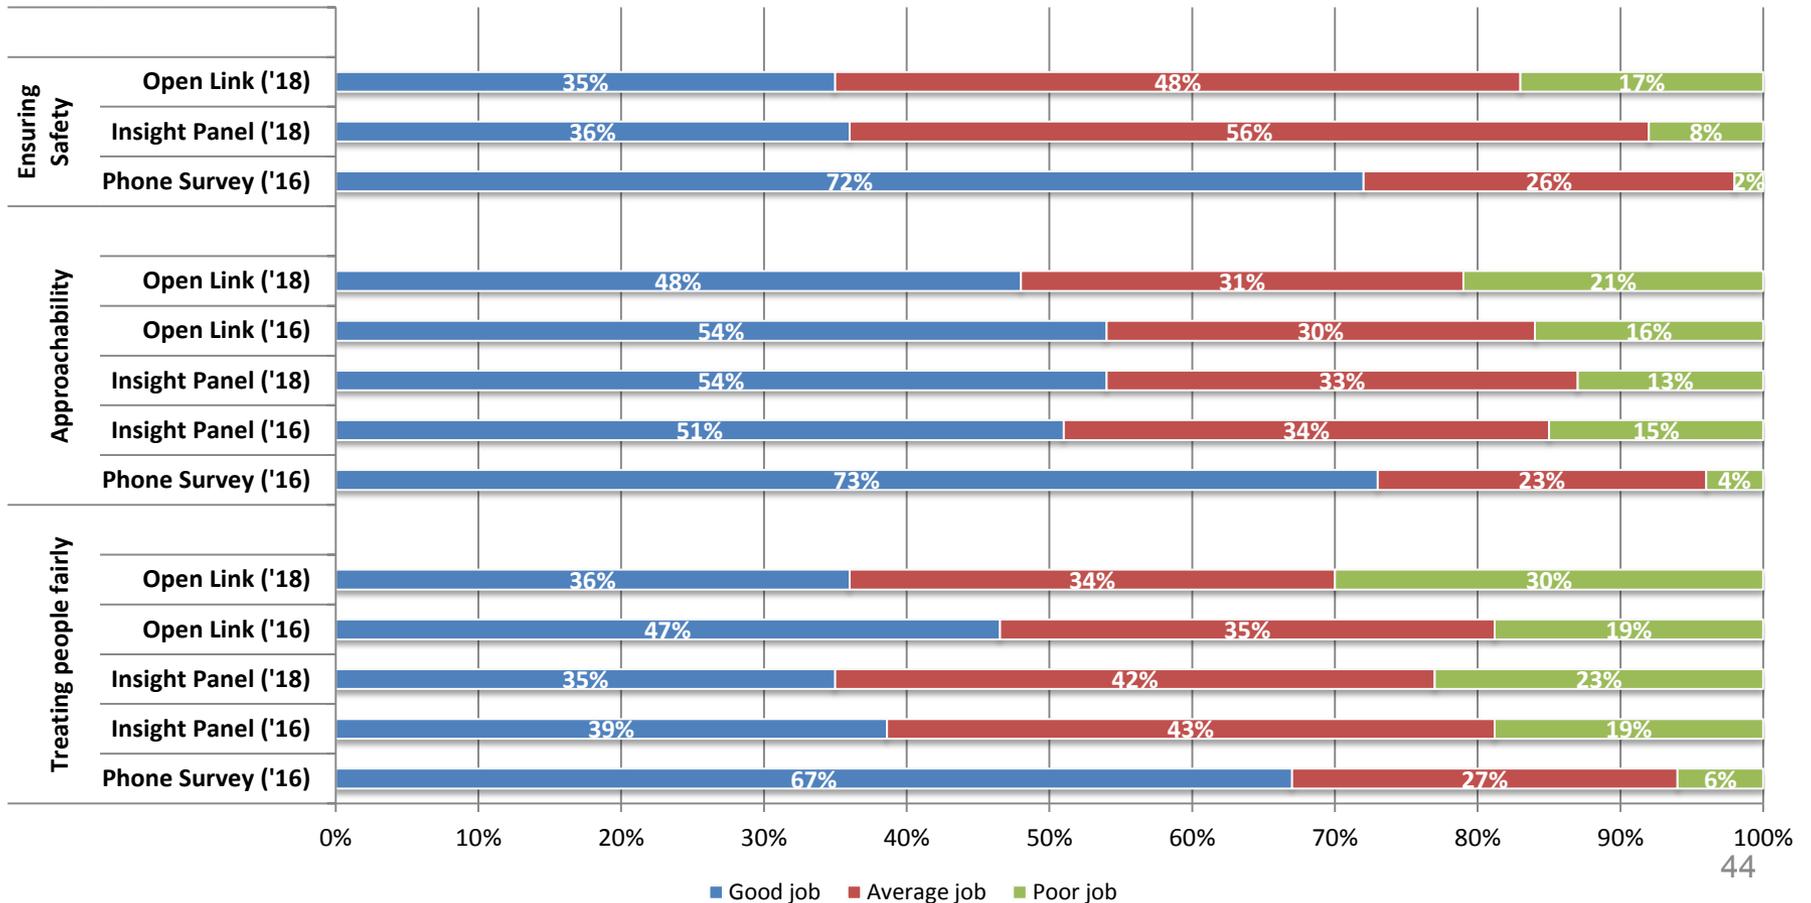

Overall View of the EPS

- When asked to rate how well a job the police do on 6 measures of performance, the proportion of Insight Panel members indicating the police have done a “good job” has remained relatively static between 2016 and 2018.

Overall View of the EPS

- Conversely, the proportion of Open Link respondents indicating that the EPS is doing a “good job” decreased between 2016 and 2018.

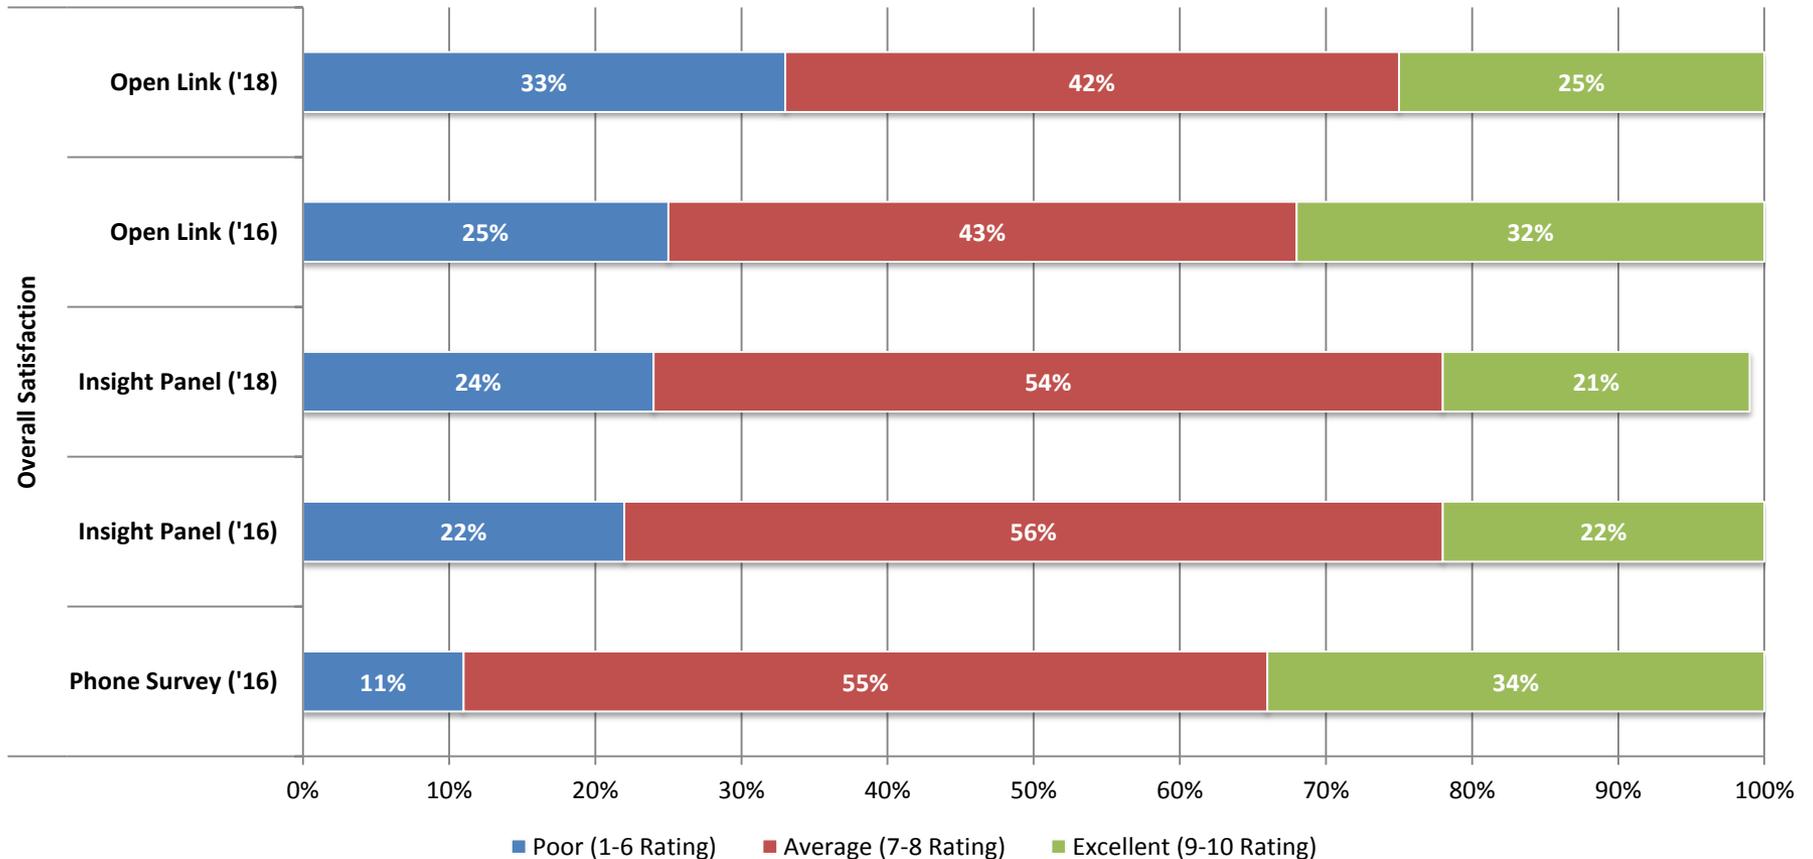

Recommendations for Improved Service

- Respondents from both samples recommended service could be most improved through more officers and an increased police presence.

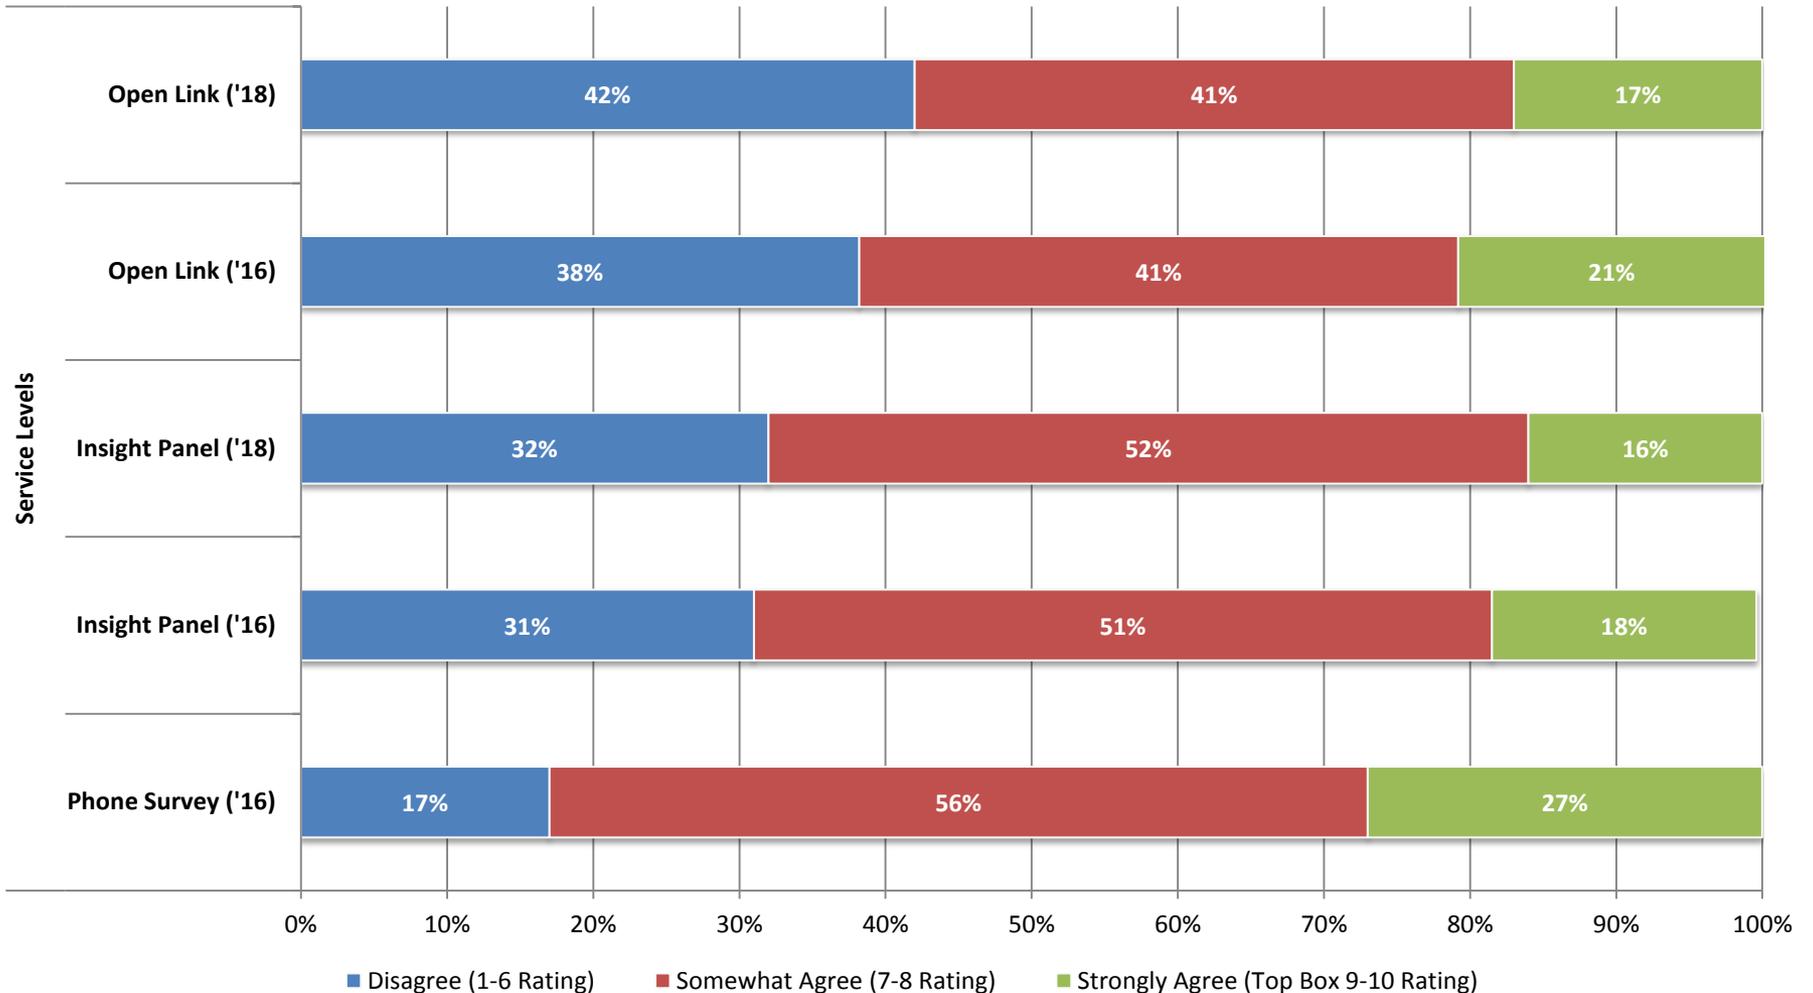

Suggestion	Insight Panel Rank	Open Link Rank
More visible police presence	#1	#2
Improve officers' behaviour (e.g., integrity, accountability, and conduct)	#2	#1
More officers	#3	#3
Faster, more efficient response to calls	#4	#4
Improve communication/contact with public	#5	-
Crime prevention	#6	#5

Overall Satisfaction with EPS

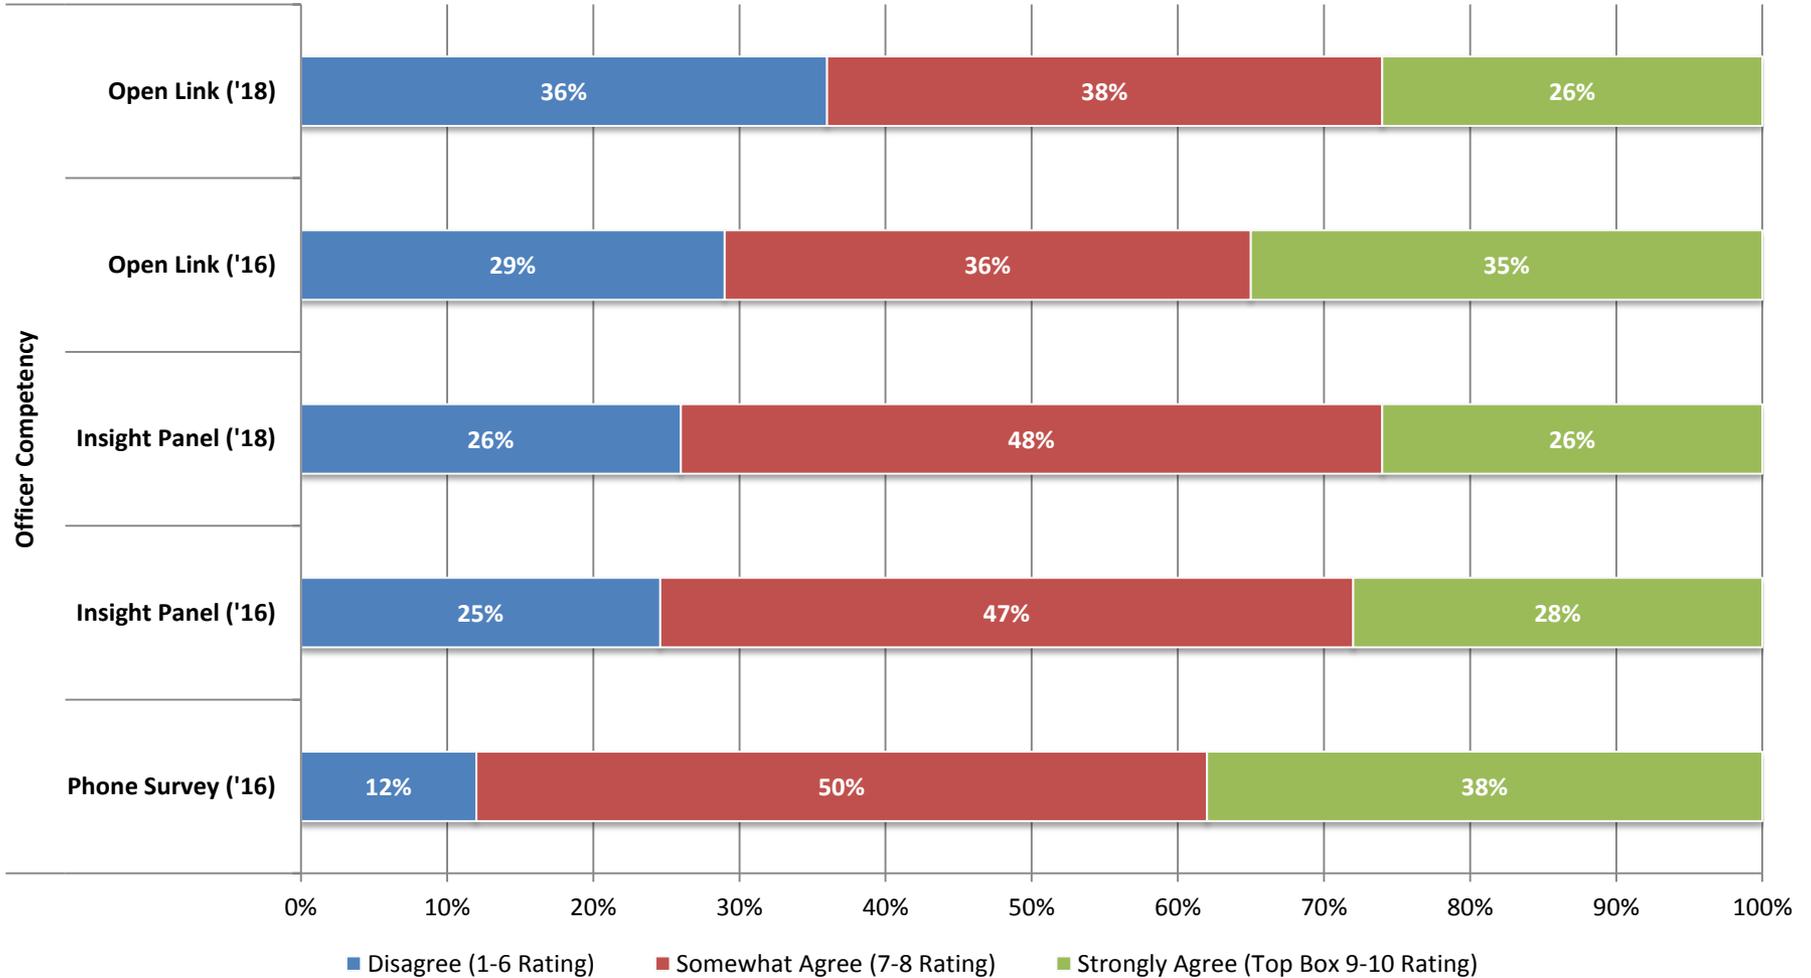

- Ratings of service levels, officer competence and EPS overall saw decreases in both the Open Link and Insight Panel samples between 2016 and 2018.

EPS Provides an Adequate Level of Service to the Public

EPS Officers are Competent in their Duties

Corporate Communications

- Approximately one-third of Insight Panel members and one-half of the Open Link respondents indicated that they accessed the EPS website in the past 24 months, with the most common method of access being internet search.

Insight Panel

- 37% (n = 742) have accessed the EPS website via...
 - Internet Search (65%)
 - The URL (37%)
 - Social Media (13%)
 - Other Means (2%)

2018 Citizen Survey

IP_ADDRESS Please be as specific as possible.

IntroPreamble

The Edmonton Police Service (EPS) in collaboration with the Edmonton Police Commission (EPC) conducts a biennial Citizen Survey to identify concerns, perceptions and priorities that Edmontonians have with respect to crime, disorder and neighbourhood safety. This survey is conducted Alberta Policing Standard OM 1.1.

This survey also provides you, as citizens, with an opportunity to provide feedback on the level of satisfaction with the policing services provided.

All information collected is confidential and the survey will take **between 20 to 30 minutes** of your time to complete.

If you have any questions or concerns regarding this survey, please contact researcheval@edmontonpolice.ca.

Questions_Preamble

The first set of questions asks about **any formal contact you** may have had with the **Edmonton Police Service**. We are interested only in **Edmonton Police Service** - not police from other jurisdictions.

Q16_6 Steal or attempt to steal money or property

To the best of your knowledge, what was the main reason this was not reported to police?
 Please select one response only.

- Dealt with another way (e.g. reported to another official/landlord/manager, took care of myself)
- Police couldn't do anything about it (e.g. didn't find out until too late, lack of proof, couldn't recover/identify property, couldn't find/identify offender)
- Did not know about online crime reporting
- Not important enough to report (e.g. minor crime, small loss, child offender, no intended harm)
- Insurance wouldn't cover (no insurance, loss less than deductible etc.)
- You did not want anyone to find out about the incident
- Nothing taken /items were recovered
- Don't know

- Fear of revenge by offender
- Police wouldn't help (e.g. wouldn't think imp would be inefficient/ineffective)
- Did not want to get involved with police
- Incident was a personal matter and did not
- You believed that your insurance costs woul

Executive Summary

Based on a scan of other police agencies in Canada, EPS has developed a business survey to run in the same year as the biennial citizen satisfaction survey. This mechanism provided an opportunity for business owners and operators to offer feedback regarding their perceptions and levels of satisfaction with EPS. This report provides the 2018 inaugural Business Survey results.

Business Improvement Areas (BIAs) were emailed a link to disseminate to their respective businesses; an open link was also posted on the EPS website. EPS administered the Business Survey online from February 20 – 27, 2018, and received 64 responses from 19 different neighbourhoods and a variety of business types.

Given the small sample size, generalizations regarding the larger population of Edmonton businesses cannot be made, however some highlights include:

- Approximately 82% of respondents are satisfied with the service EPS provides.
- Of those who had reported crime, approximately 75% were satisfied with the way police handled the occurrence.
- Respondents who had experienced crime reported, on average, 2.2 incidents to the Edmonton Police Service. However, on average, these respondents did not report 6.4 incidents of crime. The top reasons respondents did not report a crime was because, police couldn't do anything about it, police wouldn't help, and that nothing was taken/items were recovered
- Most often when crime occurred, it was some form of property crime committed against the business.
- Approximately 16% of respondents felt that crime in their business' neighbourhood had decreased over the past 24 months, while nearly twice as many respondents felt that crime had increased.
- Approximately two thirds of respondents said they contact EPS less than 3 times per year; further 22% of respondents have not contacted EPS at all. Only about 5% of respondents contact EPS monthly and 2% contact EPS on a weekly basis.
- Approximately 18% of respondents rate the EPS overall as excellent (9-10 rating). The majority of respondents, 58%, rate the EPS as average (7-8 rating).

The EPS would like to thank the business community for taking the time to provide their valuable feedback and perceptions regarding the Edmonton Police Service. Over the next few months EPS will be reviewing the feedback to determine the best ways to action feedback that was received. Going forward the EPS hopes to develop methods by which to seek broader and more representative feedback from the business community in Edmonton.

2018 EPS Business Survey Initial DRAFT Report

Background

- Based on a scan of other police agencies in Canada, EPS has developed a business survey to run in the same year as the biennial citizen satisfaction survey.
- This mechanism provided an opportunity for business owners and operators to offer feedback regarding their perceptions and levels of satisfaction with EPS.
- This report provides the 2018 inaugural Business Survey Results.

Methods

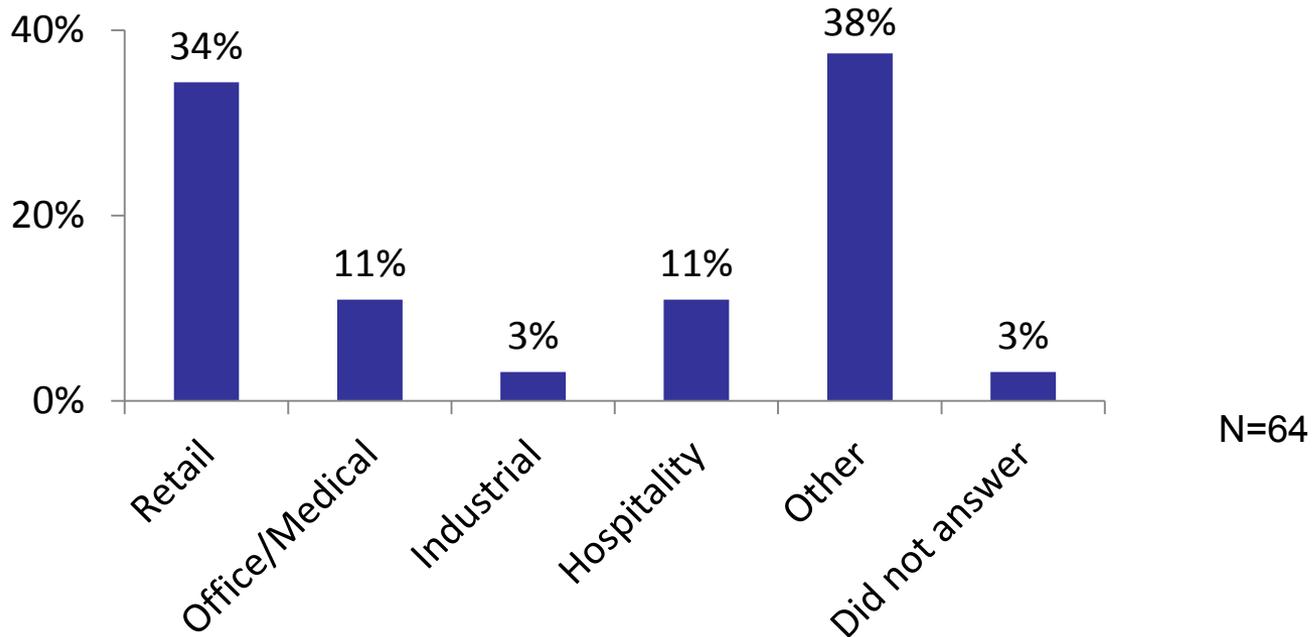

- Business Improvement Areas (BIAs) were emailed a link to disseminate to their respective businesses, an open link was also posted on the EPS website.
- EPS administered the 2018 Business Survey online from February 20 – 27, 2018.
- There was a total of 64 respondents.
- Cannot make generalizations given the sample size.

In what industry or field of business is your business primarily involved?

- Most respondents are from the retail industry or other industry (e.g. insurance, not for profit, rentals, engineering, etc).

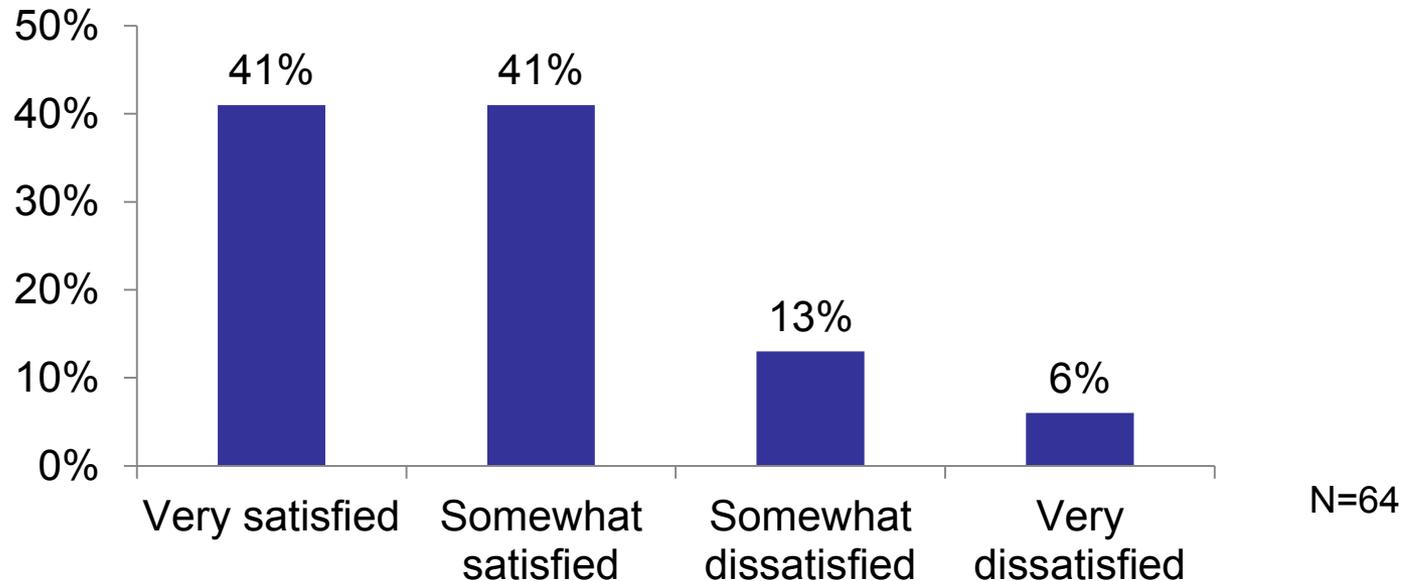

How many people does your business employ? (FTE at your location)

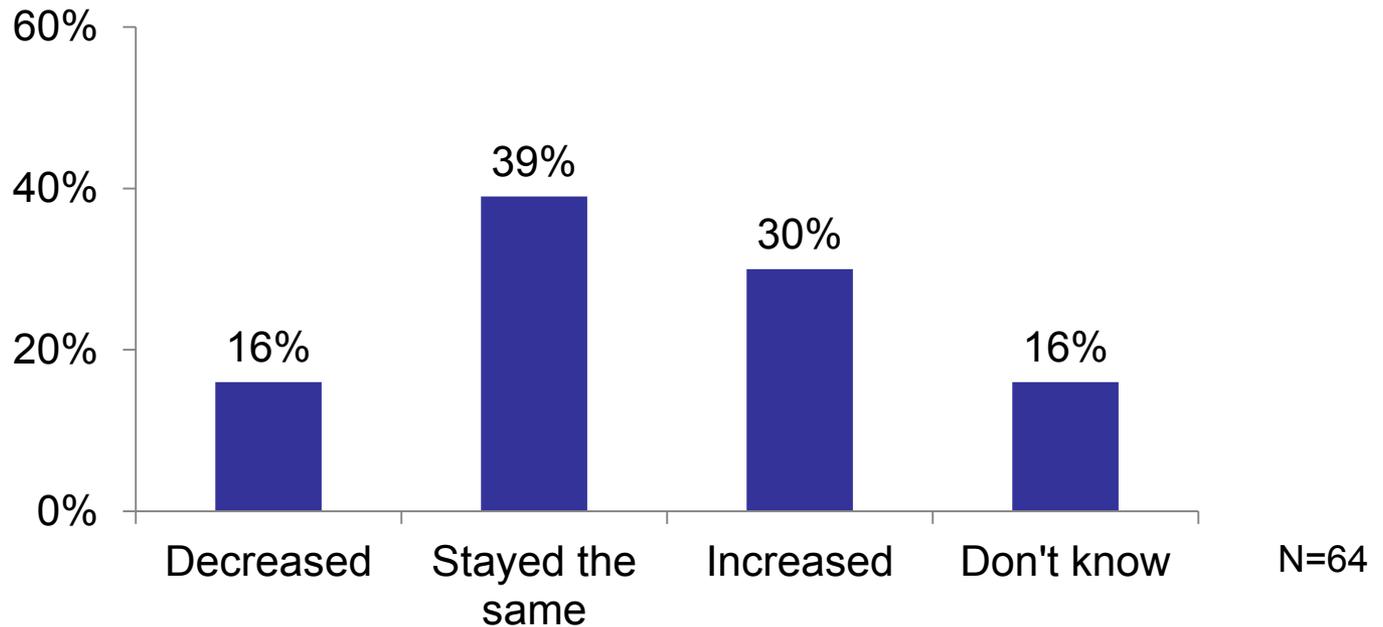

- Almost all responding businesses reported employing 50 or fewer staff.

Overall how satisfied are you with the service provided by the Edmonton Police Service...

- Approximately 82% of respondents are satisfied with the service EPS provides.

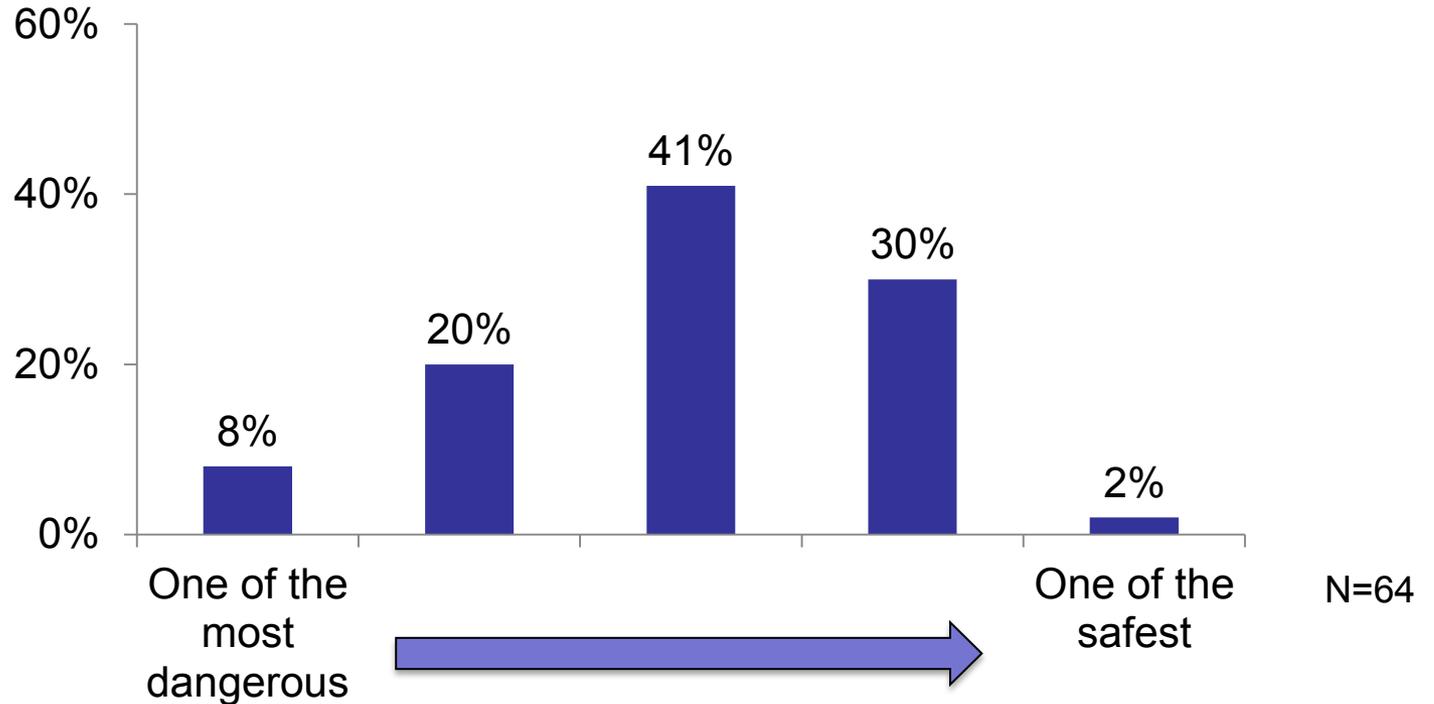

Do you think crime in the neighbourhood your business is located in has increased, decreased, or stayed the same over the past 24 months...

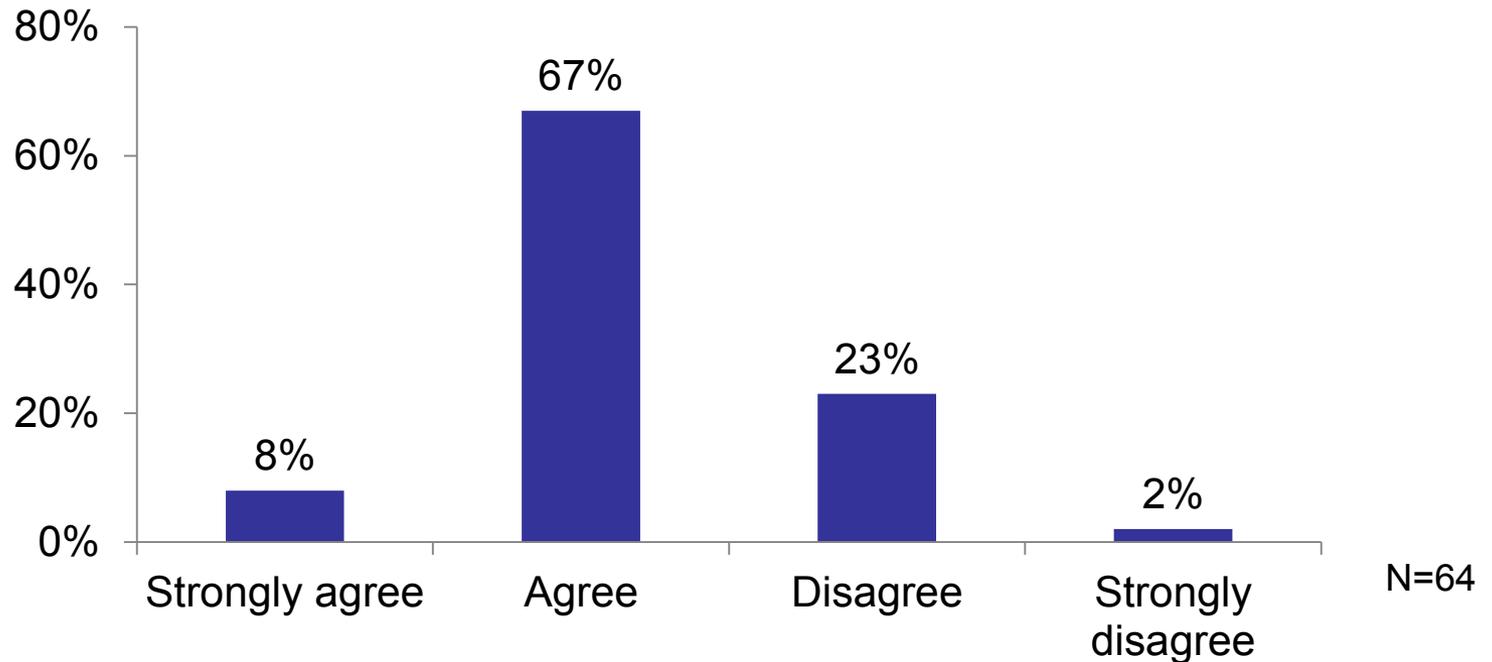

- Approximately 16% of respondents felt that crime had decreased over the past 24 months, while nearly twice as many respondents felt that crime had increased.

How safe do you feel your business' neighbourhood is?

- Approximately one-third of respondents felt that their business is located among safer Edmonton neighbourhoods.

Edmonton is a safe and secure place in which to own or operate a business...

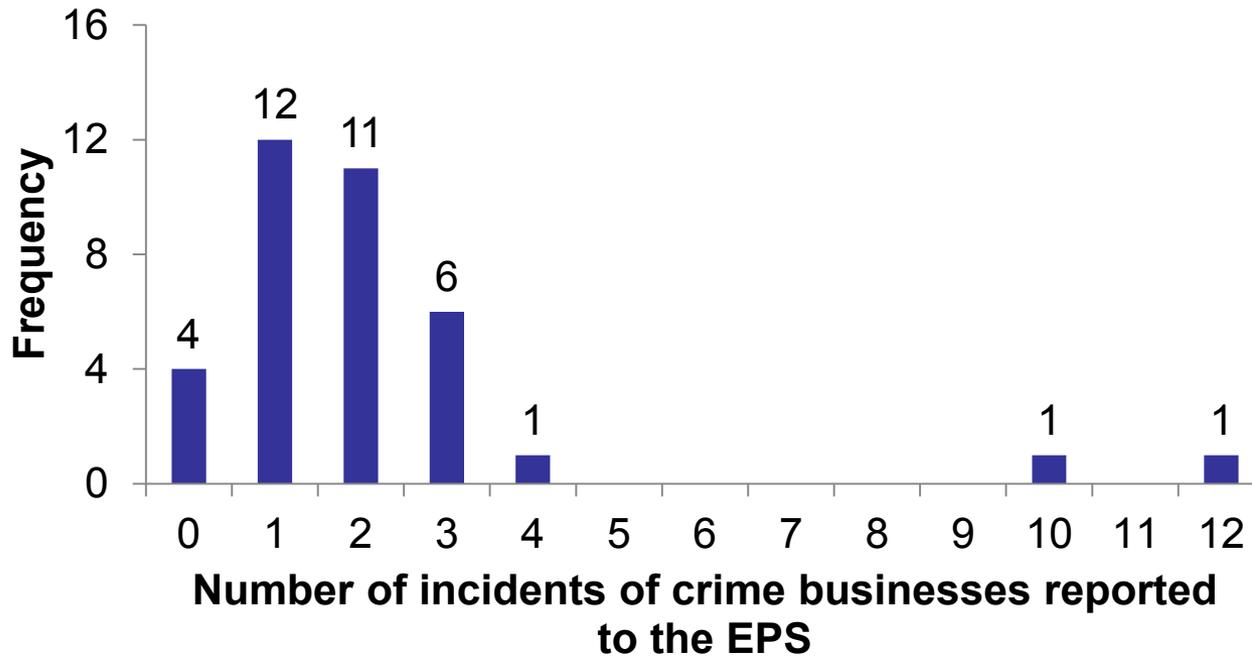

- Approximately 75% of respondents feel that Edmonton is a safe city to own or operate a business.
- Only about 2% of respondents strongly disagree.

Has your business experienced crime within the last 24 months?

	Total	Percentage
Yes	36	56%
No	26	41%
Don't know	2	3%

- Respondents who had experienced crime reported, on average, 2.2 incidents to the Edmonton Police Service.
 - On average, these respondents **did not report** 6.4 incidents of crime.
 - That is, for every incident of crime that was reported to EPS, three (3) incidents of crime were not reported to EPS.

How many incidents were reported to the Edmonton Police Service?

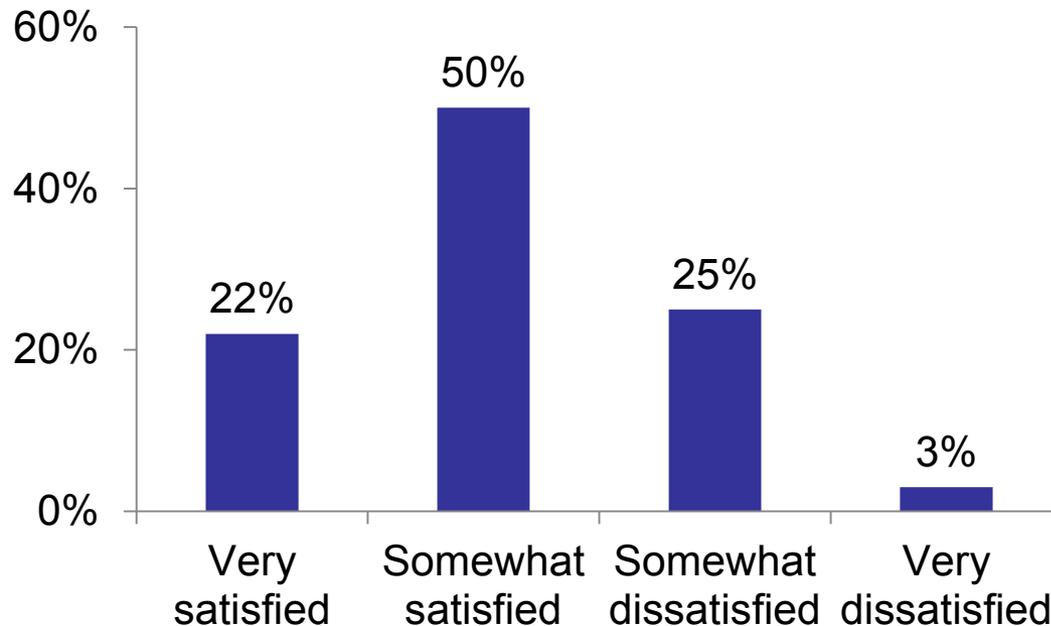

N=36

Top reasons three reasons occurrences were not reported to EPS

- Police couldn't do anything about it
- Police wouldn't help
- Nothing taken/items were recovered

** Due to a low response rate for this question, results cannot be generalized to the broader sample.*

Thinking back to the most recent occurrence, how satisfied were you with the way the police handled the matter?

N=36

- Approximately three-quarters of respondents were satisfied with the way police handled the most recent occurrence of reported crime.

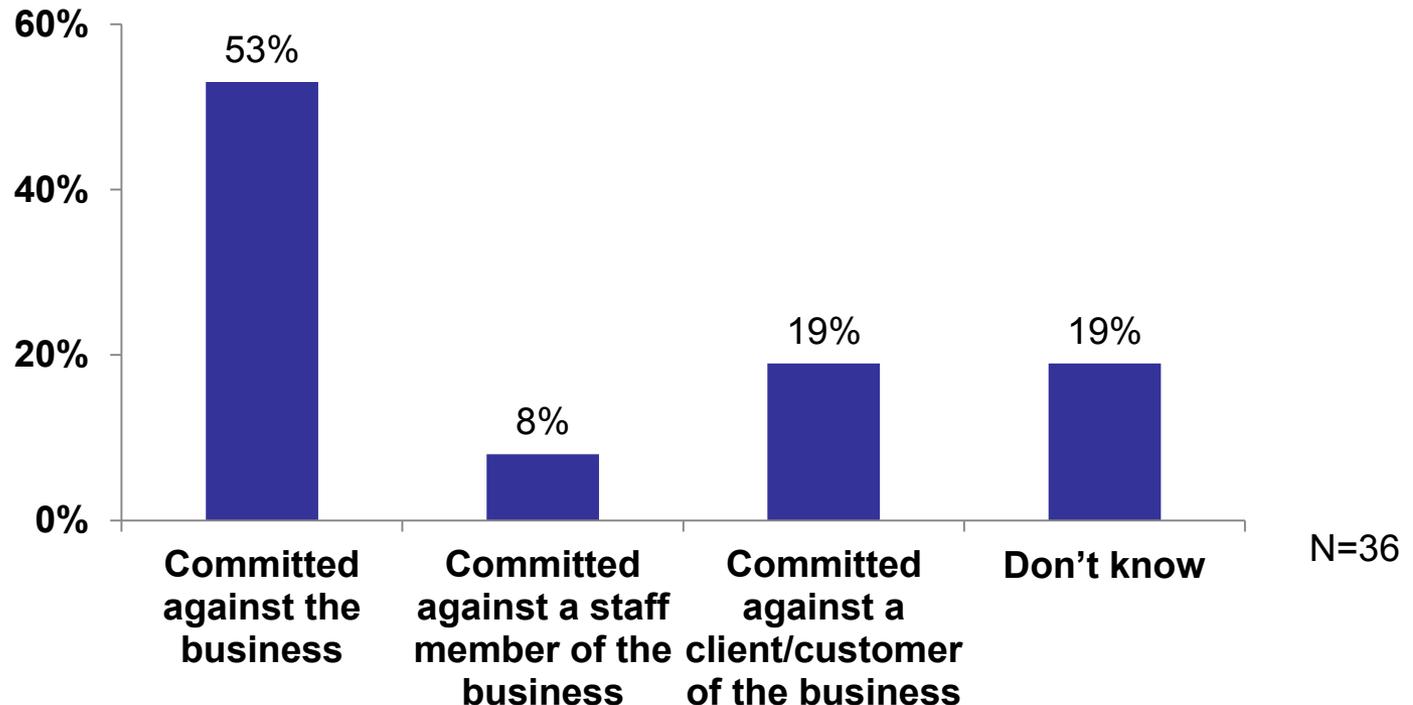

How satisfied were you with the way the police handled the matter? Please explain.

“We had an attempted break in twice this year. The second time quite a bit of damage was caused. The officers were helpful and polite. I couldn't have asked for more.”

“We had a homeless man trying to get into one of our vehicles in front of our clinic. When one of our employees yelled for the man to step away from the car, he ran to his shopping cart and pulled out a shovel. He then came to the clinic door, which we had locked. At this point, when he pulled out the shovel which could be used as a weapon, we called 911. The police were here within minutes and apprehended the man, which they took to a nearby shelter. The police were kind enough to call us with an update after as well. The area is a tricky neighbourhood that does not feel very safe, but the police response is comforting.”

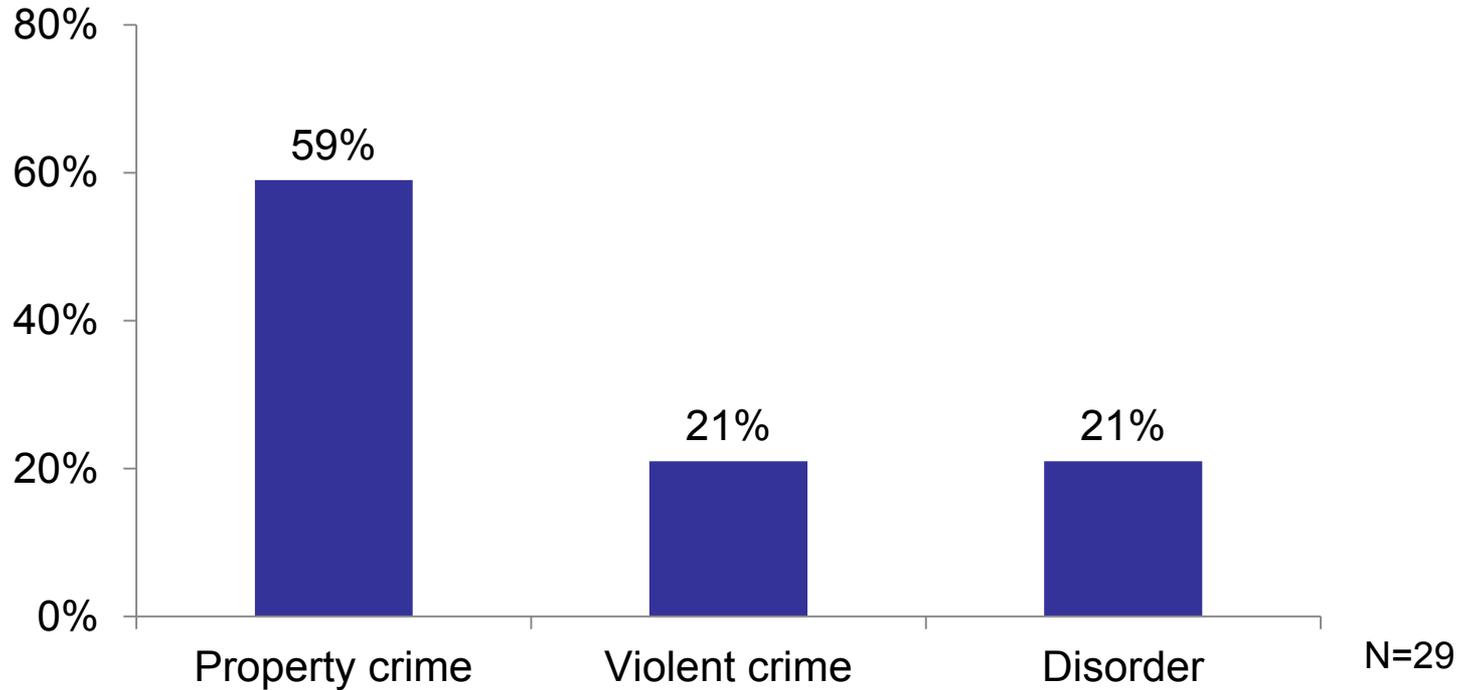

“I report the protesters outside the building on my way to work regularly - it would be great to have police regularly monitor this area.”

Thinking back to the last contact your business had with the EPS, was the crime...

- Businesses reported that most often crime is committed against the business itself rather than staff or clientele.

Was it a...

- It follows that as respondents reported that most often crime is committed against the business itself, the occurrence was most often property related.

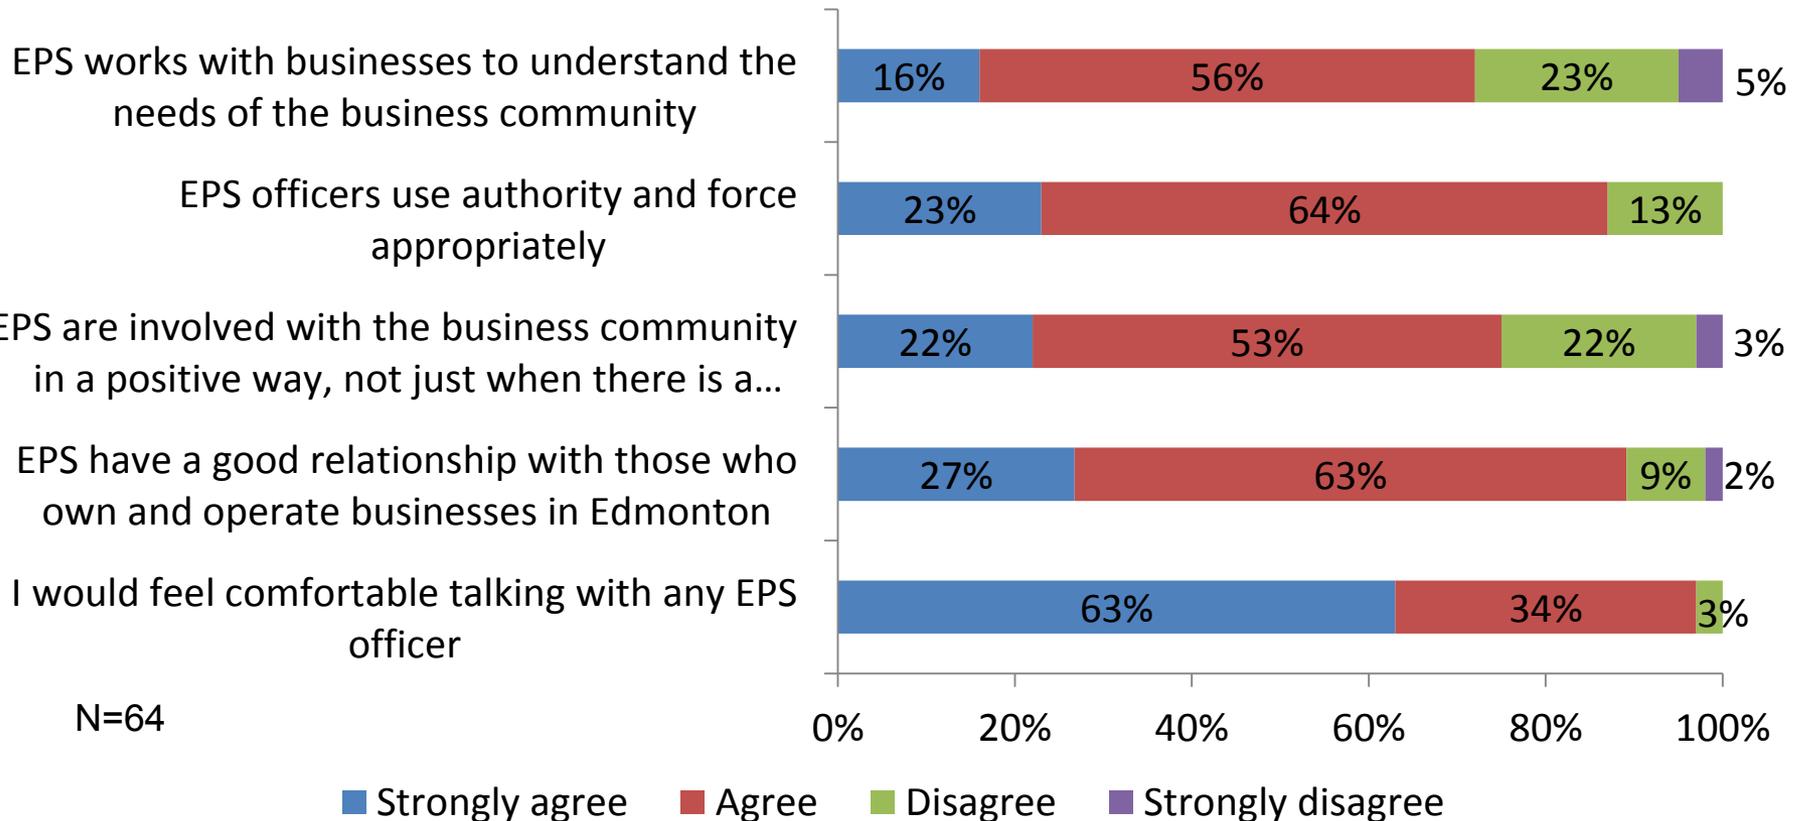

What do you feel are of most concern to your business?*

2018 Business Survey

Preview of: **EPS Business Survey 2018 EXPORT (en-CA)**

Current Date: 07/05/2018 10:25:21

BusinessIntroPreamble The Edmonton Police Service (EPS), in collaboration with the Edmonton Police Commission (EPC), conducts a biennial Citizen Survey to identify community issues, concerns, perceptions and how Edmontonians have with respect to crime, disorder and neighbourhood safety.

This new **business specific** survey provides you, as a *business owner or operator*, an opportunity to provide feedback on the level of satisfaction with the policing services provided. Even if you have had no contact with the EPS, your views are important to include in this survey.

The results will be used to help inform the EPS of business' priorities, assist in organizational planning and determine resource allocation.

All information collected is confidential and the survey will take between 20 to 30 minutes of your time to complete.

If you have any questions or concerns regarding this survey, please contact researcheval@edmontonpolice.ca.

2018 EPS Citizen and Business Survey Results

Presentation to
Edmonton Police Commission
July 19, 2018

Outline

- Background & Methods
- Key Findings
 - Contact with Police
 - Satisfaction with Police
 - Perceptions of Crime and Safety
 - Citizen and Business Priorities
 - Overall Views of the EPS
 - Knowledge of Edmonton Police Commission
- Where do we go from here?

Background

- The purpose of the 2018 EPS Citizen and Business Surveys is to identify key community issues, concerns and priorities. EPS and EPC will use the information collected in this survey to inform policing priorities as they pursue their shared vision:

To make Edmonton the safest major city in Canada and for the EPS to be recognized as a leader in policing.

- EPS and EPC administered two surveys...
 - ... **Business Survey** online from February 20 – 27, 2018.
 - ... **Citizen Survey** online from March 12 – 19, 2018.
- The number of respondents from each source is as follows:
 - Business Survey: n = 64;
 - Citizen Survey
 - Edmonton Insight Panelists: n = 1998; and
 - Open Link Respondents: n = 1989.

Business Survey Methods

- 2018 marks the inaugural year for the business survey.
- Business Improvement Areas (BIAs) were emailed a link to disseminate to their respective businesses, and an open link was also posted on the EPS website.

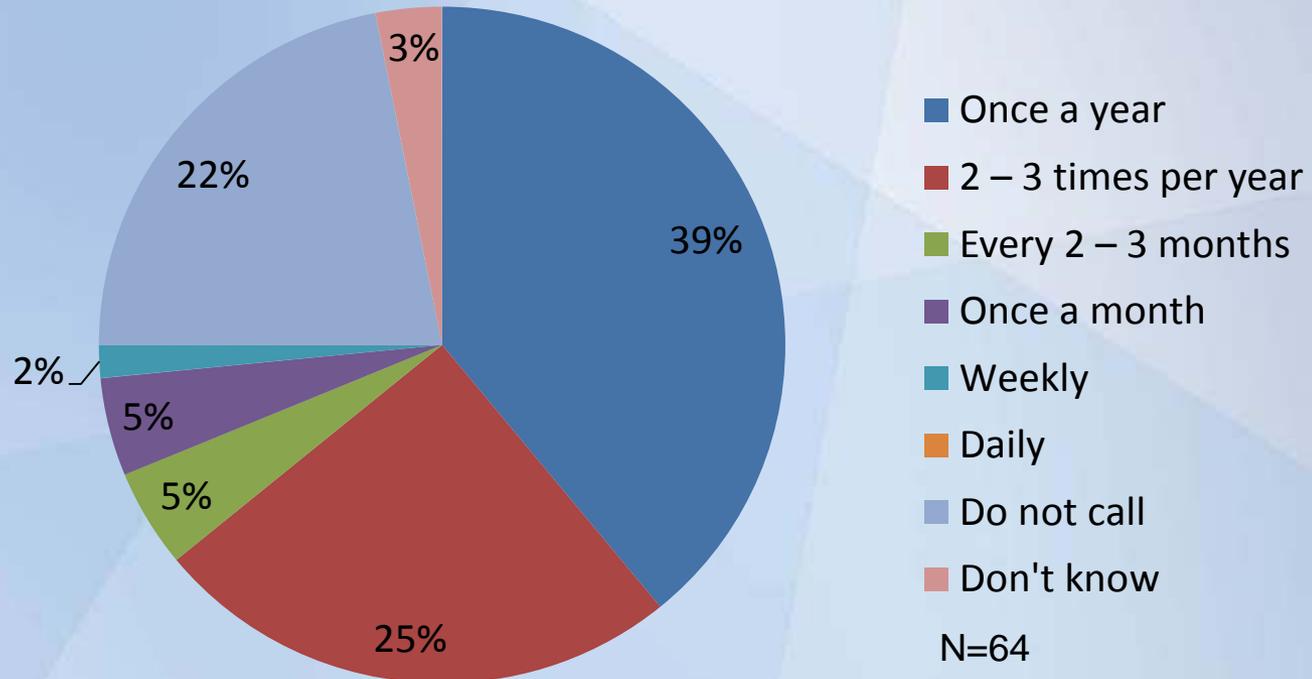

Citizen Survey Methods

- 2018 marks the first year the survey was administered entirely online.
- The online format provides two distinct samples:
 - The **Edmonton Insight Panel**, which is a defined group of engaged residents maintained by the City of Edmonton and answering to surveys on a continuous basis
 - The **Open Link respondents**, whereby EPS provided an open link via social media platforms and can be freely shared and responded
- Moving to an online format offers a number of benefits, such as:
 - Opportunity to engage more citizens
 - Cost-effective and efficient means to collect larger amounts of public feedback in a short period of time
- However, this format also has the following drawbacks:
 - Prone to Selection Bias: those individuals who are highly motivated to respond, typically individuals who have strong opinions, are overrepresented, and individuals that are indifferent or apathetic are less likely to respond
 - Difficult to generalize to the entire population
 - Because the administration method has changed, we are no longer able to effectively compare the results to previous years

Business Contact with Police

- Approximately 64% of respondents said they contact EPS less than 3 times per year, while 22% of respondents have not contacted EPS.
- Only about 5% of respondents contact EPS monthly, and 2% contact EPS on a weekly basis.

Citizen Contact with Police

Insight Panel

- 58% (n = 1154) have had contact with police:
 - Non-emergency number (55%)
 - Visiting a police station (41%)
 - 911 (25%)

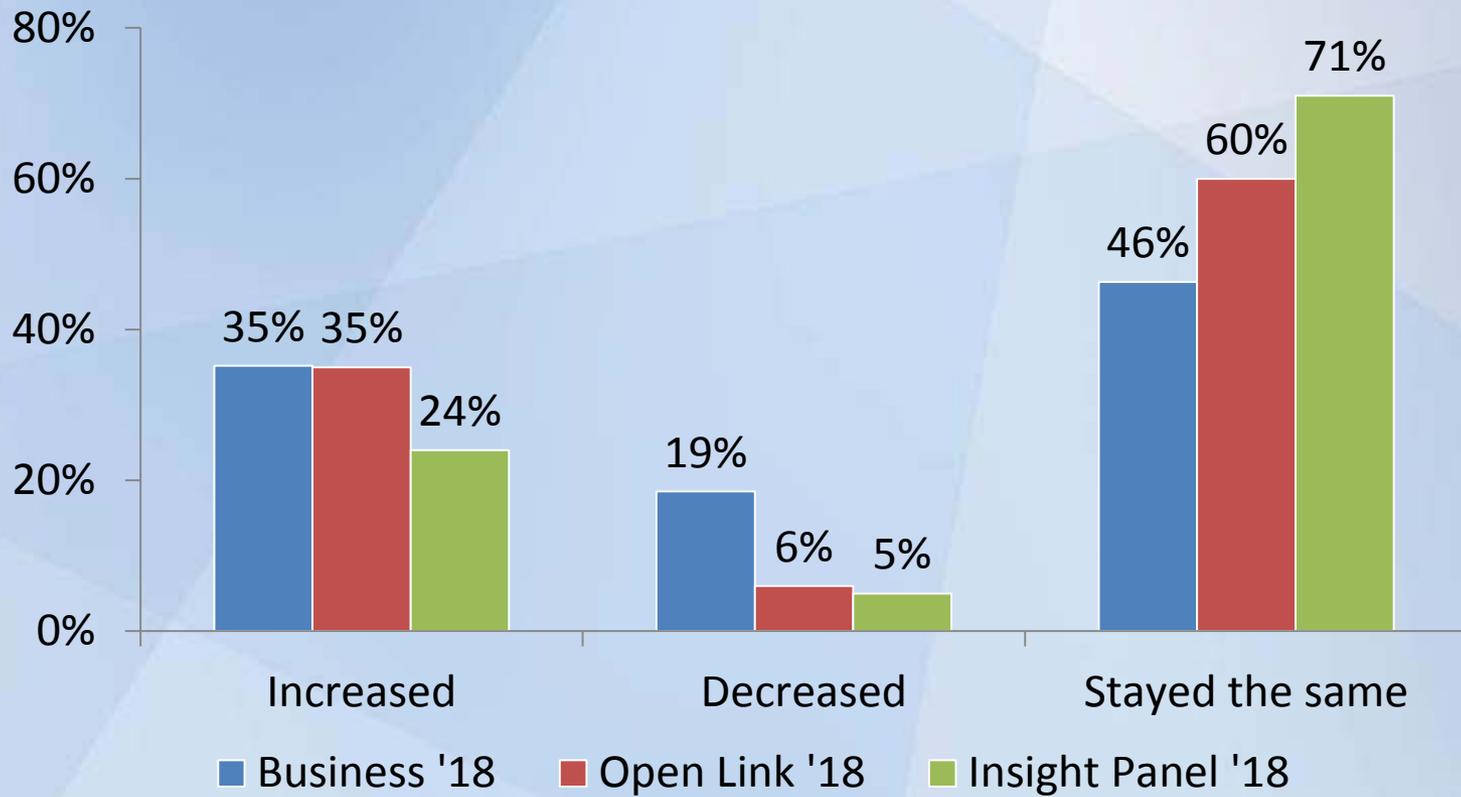

Open Link

- 71% (n = 1403) have had contact with police:
 - Non-emergency number (62%)
 - Visiting a police station (41%)
 - 911 (38%)

Reasons for contact	Insight Panel	Open Link
Report a crime	37%	46%
Report a neighbourhood problem or concern	29%	30%
Report a traffic accident or medical emergency	26%	26%

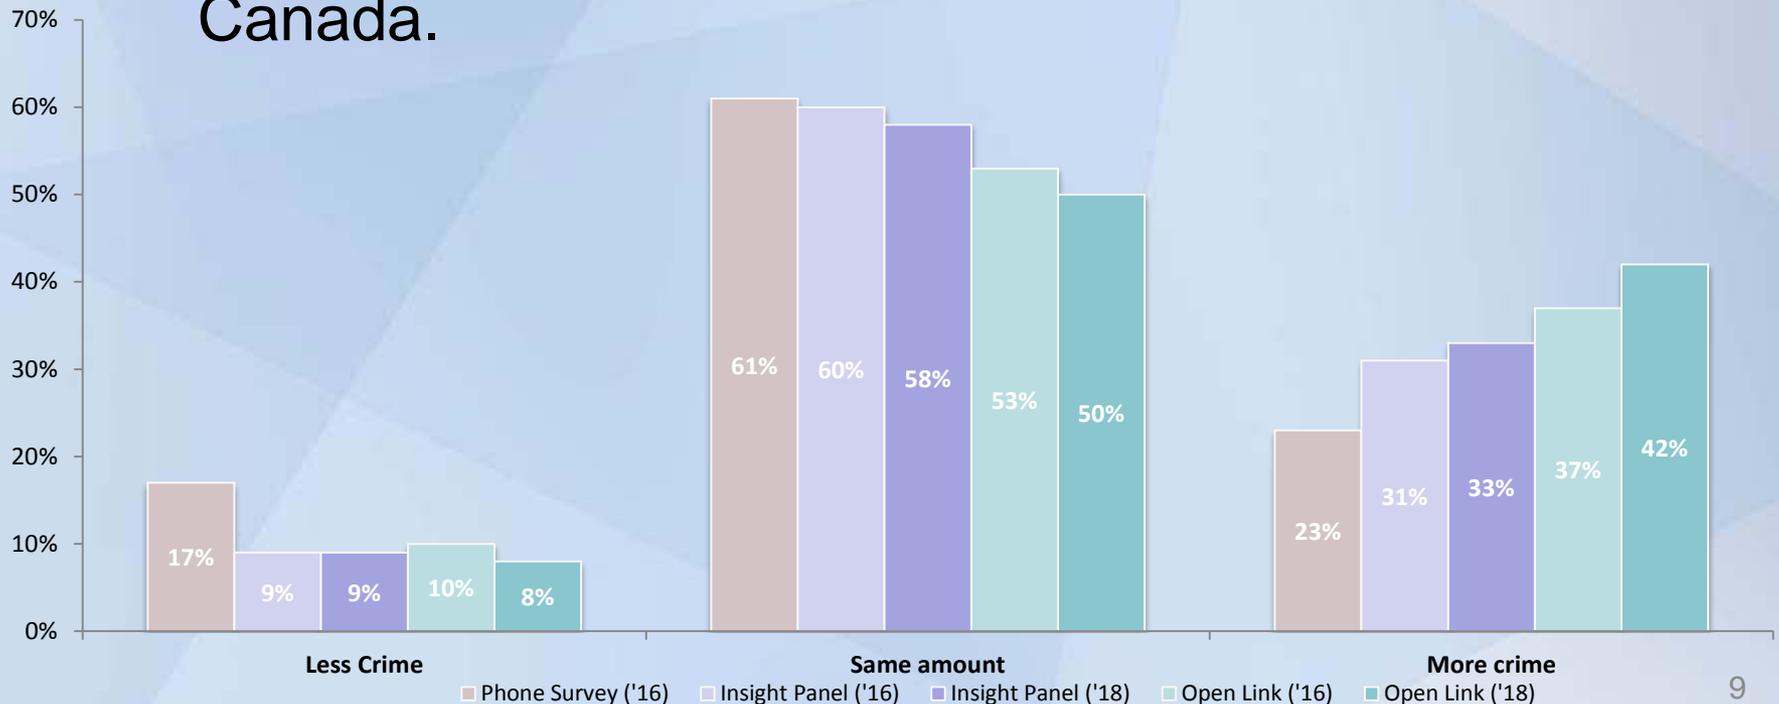

In the past 24 months, crime in *your neighbourhood* has...

Compared to other cities in Canada, *Edmonton* has...

- Consistent with previous findings, citizens responding to the Open Link were more likely than Insight Panel members to say that Edmonton has more crime compared to other major cities in Canada.

How safe do citizens feel...

- All responding citizens felt safer walking alone during the day compared to walking alone at night.
- They also felt safer walking alone in their neighbourhoods than in the City in general.

	Sample	Very safe	Reasonably safe	Somewhat unsafe	Very unsafe
...walking alone in Edmonton during the day?	Insight	46%	49%	4%	1%
	Open Link	32%	57%	10%	2%
...walking alone in Edmonton at night?	Insight	6%	50%	35%	9%
	Open Link	4%	33%	44%	19%
...walking alone in your neighbourhood during the day?	Insight	64%	32%	3%	1%
	Open Link	49%	41%	8%	2%
...walking alone in your neighbourhood at night?	Insight	25%	47%	21%	7%

Where do we go from here?

- While confidence in the EPS remains high, so do expectations of where and how the police should be focussing efforts.
- Specifically Edmontonians surveyed conveyed the following:
 - More 2018 respondents identified that police took longer to arrive than expected (compared to 2016);
 - Respondents in 2018 and 2016 have consistently felt that crime in the city has increased;
 - Respondents in 2018 have identified a number of complex areas as the **top five city-wide issues** for the EPS to address. These include Homicide; Sexual Assault; Drugs; Domestic Violence; and Gangs;
 - Specific to **traffic**, the top three concerns identified by respondents were noted as distracted driving; aggressive/reckless driving and impaired driving.
- Respondents were also asked about how service can be improved, to which they prioritized **more visible police presence** and **more officers**, among other feedback.

Where do we go from here?

- The EPS has dedicated efforts over the past four years to conduct efficiency exercises that have resulted in \$24 million in re-allocated resources to high priority areas.
- While engaging in program reviews and continual improvement will continue, the prospect for further, large-scale internal re-allocations is generally exhausted.
- Consideration now must be given to how to balance public expectations with constrained resources, given a fixed budget and funding formula designed to align only with population and cost growth, not the growth of citizen expectations.
- Consequently, the EPS will use the feedback gleaned from the survey as one input in the planning processes that will be submitted through to the EPC.
